Dear Family's,

Whew... We made it through our first month of school and I must say, it went pretty smoothly. I have learned a lot about your children...I have learned each child's individual schedule, and they are adjusting to our daily routine. It took a little of trial and error, but we're all doing FANTASTIC!!

It's amazing to see how different we are, in regards to what makes us special and the great things we can do...

Liam's talents are standing and walking while pushing a push toy... he loves to use his leg muscles. He crawls very fast and loves to follow me around the room. He's also say some words and always has a smile for you.

Ayden is on the verge of crawling. He's great at going backwards...now we just have to practice moving forward. Another funny thing he does is flapping his arms and moving his legs while on the changing table. I swear, one of these days he's going to "fly"... if only he had feathers! He loves to smile and cuddle.

Mason is a mover and a shaker...he doesn't like to stay in one place for very long. He wants to see as much as he can. He loves musical toys and working his leg muscles while jumping in the exersaucer. I predict he will be an early walker. His new trick is blowing the "raspberries"...he's a pro!

Charlotte is the one and only girl in our class...I guess you could call her the princess of our room. Charlotte A.K.A. Charli is very smiley and very talkative...she loves to tell us stories. She loves to swing and watch the mobile go round and round while she listens to music. She has been seen trying to roll over, AND... she has a tooth at just under 3 months old!!

Even though we have only been together a few short weeks, we are bonding quickly... I Love them so much already! :)

Sincerely,

Ms. Carrie :)
