

Modern Block of the Month

The June Block

w/ Mary Dunn

Fabric Requirements / Cut List

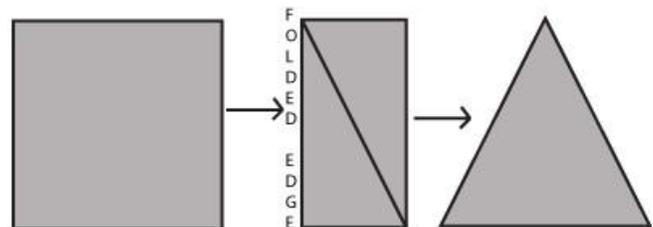

- Fabric A (grey):** 12" square
- Fabric B (white):** 2 - 6.5" x 16" rectangles
- Fabric C (blue):** 6" x 3.5" scrap
- Fabric D (orange):** 6" x 3.5" scrap

Labeled for Instruction

- A1
- B1 & B2
- C1
- D1

Cut A1 into a triangle:

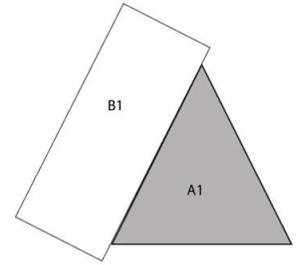

1. Fold the 12" x 12" square in half.
2. Cutting from one corner to the other along the line as indicated on the diagram and trim the square into a triangle (A1).

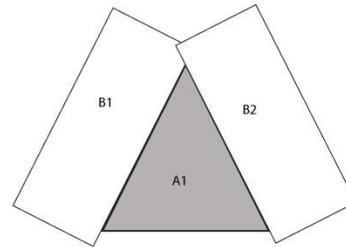

Tip: If you're making a lot of these blocks, you can cut out one triangle this way. Use it as a template to cut many more triangles out of a 12" WOF strip. This will help you avoid a lot of wasted fabric.

Assembling the Block:

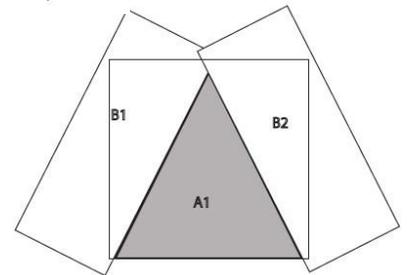

1. Sew B1 to one edge of A1. When you line up the ends of B1 center the extra length on either end. Be sure to press after this step. I prefer to press my seams open, but it's up to you.

2. Sew B2 onto the other long edge of A1, again being sure to center the extra length of B2.

3. Using a 12.5" ruler square up the block. Use the bottom edge of A1 as a guide and keep A1 centered in the block.

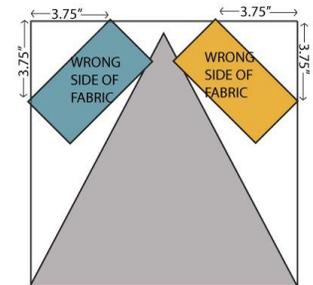

4. With right sides of fabric together (so the wrong side of C1 will show) line up C1 with the upper left corner of your squared-up piecing, making sure that you've lined the edges up so that they meet 3.75" in and down from the corner.

5. Sew on C1.

6. Repeat this process for with D1 on the upper right corner.

7. Trim o the extra B background fabric, and press C1 and D1 up.

8. Now trim C1 and D1 to square up the 12.5" block and you're all finished!

Samples of quilts made entirely with this block.
