

23rd. Observed new log yard on route #113, West end of Baldwin. Land is owned by Kyle Farrington, (previous Warren Anthony had an auto garage service station), and Farrington rents/leases land to John Fortin for log collection. Fortin operates out of the Buckfield, Me. area.

Planning Board requested this activity to be looked into and initiate a conditional use permit application. The application would be with Kyle Farrington and not the renter, John Fortin, although he would participate to contribute information of business conduct.

Note: On July 13th, Farrington & Fortin had a “no show” at the planning board meeting. Upon inspection, the log yard had been vacated and cleaned up. Unknown reason for termination of activity.
