SPAH Convention Was Held Virtually this Year

AUGUST 12-15, 2020

I hope you took advantage of this ground-breaking event. When life gives you lemons, make lemonade, and the SPAH people made a big pitcher full of seminars and fantastic entertainment. The unique thing about this event is that we were able to have entertainers and seminar presenters from all over the world. Unfortunately, we could not be there in person to enjoy renewing friendships and playing together in the hallways. But maybe you got out your harmonica and played along with some of the acts appearing in the evening.

I enjoyed attending the virtual seminars during the day and Nancy and I had dinner sitting on the sofa while watching the great entertainment in the evening (I did. It was fun!).

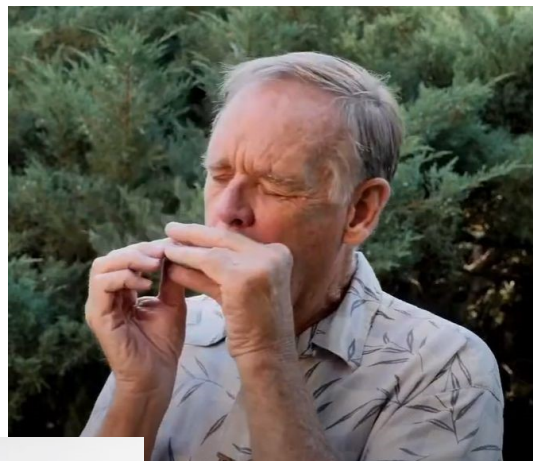

SPAH President Michael D'Eath was able to get **Youtube** to keep the programs on their website but we don't know how long the videos will stay on the site. Just go to [youtube.com](https://www.youtube.com) and type "SPAH" in the search box.

The following are screen shots of some of the entertainers.

Roger Bale

Steve Baker & the Family Band coming to you from their kitchen in England

Our own Paul Davies

Tony Eyers from Australia used video technology to clone himself into a trio. He was great!

Colorado's own Nick Clark

Antonio Serrano from Spain, has an amazing resumé. He and his accompanist played a fantastic set to close out Saturday evening. You can read about him and all the other entertainers in the latest issue of SPAH's *Harmonica Happenings* magazine

Thank you to Michael D'Eath and great SPAH team for creating a great virtual convention. I have a feeling that we will be seeing more of these virtual performances at SPAH conventions in the future.
