

# **Emergency Kit Checklist**

☐ Battery-powered or crank flashlights/lamps

Create your own emergency kit to help you and your family stay safe until emergency responders can reach you. Your kit should contain enough supplies to keep you and your family safe and comfortable for a minimum of 72 hours. Kits come in all shapes and sizes (items can be stored in a plastic tub, a large duffel bag or backpack). Store your kit at home in a front closet or easy to access location. Personalize your kit to suit the needs of you and your family. This list is meant to be a guide only.

Don't be discouraged by the number of items on the list. Being prepared for emergencies does not happen overnight. Use this checklist to build your kit over time. By taking small steps, you and your family can be prepared without overwhelming your schedule or your budget.

#### **Food and Water**

□ Candles□ Lighter

Waterproof matches

(Three	e-day supply of non-perishables per person recommended)
	Protein/granola bars

### **Other Items for Consideration**

Comfort and distraction items such as small toys, blankets and stuffed animals for
children
Supplies for breastfeeding mothers and small infants
Mobility devices or speciality items for persons with disabilities or chronic illness
Cooking and camping supplies such as small stove with fuel (follow manufacturer's
directions for operation and storage), shovel, rope and tarps
Warm clothing (seasonal considerations)
Water purification system

## **Take Your Preparedness to New Heights**

If you haven't done it already, complete your <u>personal preparedness plan</u>
<ul> <li>Take the <u>Personal Preparedness Course</u></li> </ul>
Make a list of personal items in your home that you would want to take with you, if time
allowed (photo albums, computers, back-up hard drive, heirlooms etc)
Call your insurance company to discuss coverage and obtain additional coverage, if
required
Refresh your kit (check expiry dates on food, update your contact list and refresh water)
