DESCRIPTION: George Birnie designed BP Rogue recurve. No delamination; limbs are straight. Overlays and tips are intact and structurally sound. One tip has had some work done on it to fill some cracks (see last pic). No drilled holes. No other chips, dings or cracks. No stress lines or crazing. A few scratches and scuffs here and there. This is a serviceable hunting bow in good condition for its age. Bow has been partially reconditioned.
