DESCRIPTION: This would be a good starter bow, or one for the occasional bowhunter. This bow is of unknown origin. It was likely made by an amateur bowyer. It was not made from a Bigbam kit. As they had no designs of this type and not 58" that were similar. However, this bow has no delamination; no cracks; limbs are straight. Overlays and tips are in good condition. No drilled holes; No chips, dings or cracks. No stress lines or crazing. A few minor scratches and nicks here and there. Overall, this is an attractive starter bow that is in good condition for its age. This bow was put to a stress test (held at full draw for 16 hours to make sure the old glues still held and no stress cracks developed. Then taken to the range and test shot. Comes with a new string.
