

Insurance Committee Meeting Minutes
August 17, 2016
6:00 PM - 7:35 PM

Present: Rosetta M. York, Larry Brooks, Melissa Brooks, Robert Reisner, Jason Booth, Ray Diel, Mark Bolander, Scott Bloomberg & Steve Rubsam

- Jason Booth & Ray Diel, representing Snedeker Insurance, spoke about possible changes to the city employee health insurance policy and made recommendations. Any changes would be effective January 1, 2017
- Agreed to maintain "grandfathered status" under the PPACA. The city can decide which preventative medical procedures, immunizations, vaccines & FDA approved contraceptives to add to the policy. Committee agreed to provide incentives for employees to use the County Health Department.
- Discussed a health insurance rate increase for city employee dependents and a rate for city employees. Melissa will have dollar amounts for 2%, 3% and 5% increases to compare at a future meeting.
- There was a general consensus among the committee to switch to a different claims administrator. CoreSource, a national network administrator, would replace our current administrator, Mutual Medical. The change is recommended by Snedeker Insurance based on claim processing efficiency, network access to claim status and other benefits not available with the current administrator.
- Committee agreed to change the national network employees use when seeking care outside the HealthLink service area. CCN Amera-Net would be replaced by PHCS/MultiPlan. The current network does not provide adequate discounting or provider options.

Meeting Adjourned 7:35 PM

Steve Rubsam
Insurance Committee Chairman
