## THE COMING RE-DEDICATION OF THE HOLY TEMPLE

*Prophetic Heavenly Signs, War, Alignments and Configurations*

This chart illustrates the alignments of comet ISON as it pertains to the Jewish Festival of Chanukah on November 28, 2013. The charts approximate the depiction of what the skies will look from the Temple Mount in Jerusalem and at the Giza Pyramids in Egypt. This chart seeks to show that ISON is a prophetic harbinger of what Biblically is about to take place in Israel. At some point in time, there will be the dedication of the 3<sup>rd</sup> Temple, inevitable war with Syria and its Muslim neighbors and the coming AntiChrist, as type and shadow of 'Antiochus IV' as it was in the 2<sup>nd</sup> century BC that led to the Festival of Chanukah.

The imagery will depict comet ISON as the 1<sup>st</sup> 'candle lit by the Sun as the *Shamash* in a 'Celestial Chanukah Menorah' as Antares comes above the horizon. This alignment of ISON occurring at this precise place and at this precise time clearly depicts Biblical symbology against the starry skies. ISON will be in direct line with the Dome of the Rock. The *Shamash* or central stem of the Menorah where the Sun is rising above the horizon is in direct line to the *Golden Gate* and the *Dome of the Spirits*. Many believe that it is where the 3<sup>rd</sup> Temple's true location is at and will soon be built. All the furnishings required for the Holy Service have been made; all the Priestly duties are assigned.

Each 3<sup>rd</sup> interval of the 27 hour period that comet ISON is circumventing the Sun will correspond to a 'candle' on the Chanukah Menorah.

### ברוך אתה אדוני, אלוהינו, ריבונו של העולם

### The Shamash

The Sun, correlates to the *Shamash*. It is the center candle that lights the others. Comet ISON is depicted as being the 1<sup>st</sup> 'candle' to be lit' by the Sun's solar flares. One candle is added to the Menorah each night. The *Shamash* can be at a higher or lower position than that the rest of the Chanukah candles.

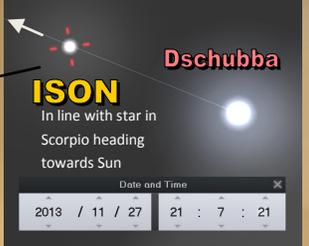

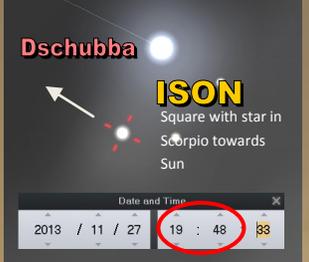

### PERIHELION

ISON reaches perihelion on Nov 28, 2013 the closest approach to Sun after the start of the 1st lighting of Chanukah. As the gravity of the Sun pulls the comet in, it will dramatically increase in speed as it circumvents the Sun. If not disintegrated, it will take about 27 hours. This will start from the 27th and will approximate the 8 'candles' the comet will depict celestially around the Sun.

Comet ISON (C2012 S1)  
ISON's tail estimated to be almost 3x longer than average comet ~ 186,000 miles over 3/4 the distance from Earth to Moon.

### PROPHETIC CHANUKAH PATTERN TO COME

The events that led to Chanukah in the 2<sup>nd</sup> century BC echo down the halls of history to present day Israel and its Temple Mount. Back then, Judea was in the middle of a contentious and dangerous time, as it is now. On one hand there were the Ptolemy's of Egypt and the Seleucids of Syria on the other. Each was vying for political, military and religious dominance in the Middle East, specifically control over Jerusalem and the Temple Mount. It appears that the same players and the same core issue will come to a head once again in Israel, the Temple Mount. The Muslim Brotherhood in Egypt on one hand and the U.S. supported and armed al-Qaeda 'freedom fighters' in Syria on the other match this pattern. Both are extremist Jihadist bent on the destruction of Israel and absolute control over the Temple Mount.

In these Last Days, such books like Daniel, Ezekiel, and Revelation present a prophetic pattern that will occur again in Israel but in reversed order. Chanukah is directly related to the Temple that was and yet is to be built and the war that was and is yet to occur. Prophetically, the significance of the celestial Chanukah Menorah sign may be that comet ISON is announcing that this pattern of prior history is about to repeat itself but in REVERSED ORDER in Israel. There were 3 specific events that will be generalized. In the 2<sup>nd</sup> century there was 1) a war with Syrian Greek Seleucids, 2) a defilement of the Temple by Antiochus IV and 3) a rededication of the Temple thereafter. What is prophetically coming to Israel may be the following scenario in reversed order.

### THE DÉJÀ VU EFFECT

- 1) An attack by Syria upon Israel that will allow for the dedication of the 3<sup>rd</sup> Temple as the furnishings and Priestly order are complete.
- 2) The AntiChrist's coming, that like Antiochus will defile the 3<sup>rd</sup> Temple, will cease the Daily offerings at the future 3.5 year time period from the dedication of the 3<sup>rd</sup> Temple.
- 3) Wars with the enemies of Israel will continue as a countdown to the final war of Armageddon where the LORD gathers the nations of the world around Jerusalem.

From comet ISON's PERIHELION Nov 28, 2013:  
+ 322 Days = Sep 20, 2014 Fall Equinox  
+ 666 Days = Sep 25, 2015 in-between Yom Kippur and Sukkoth  
+ 777 Days = Dec 20, 2015 Eve of Winter Solstice

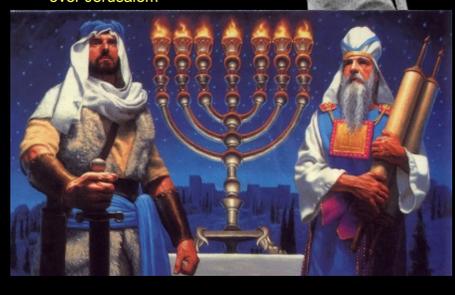

666 DAYS

TETRAD  
5776  
Jubilee ?

### THE YEAR OF LIGHT

A 666 day count from ISON's perihelion on Nov 28/29, 2013 will be Sep 25, 2015. This occurs in-between the start of *Yom Kippur* on Sep 22nd and the start of *Tabernacles* on the 28th. This is also the end of the 7 year Shmitah economic reset. Many do believe this will be the proclamation of the JUBILEE YEAR. It will be 5776, the *Year of Light*. Thus Chanukah, as the *Festival of Lights* has this direct relationship and number associated to it. Many believe that this time period is when the *Tribulation Period* may possible start. Then 3 days later from the 25th of the 666th day count, the last Blood Red Moon of the Tetrad on September 28, 2015 will occur. In 2015 Chanukah will occur on December 7th, a 'Day of Infamy'.

### The Year of Light: 5776

A 666 day count from ISON's perihelion on Nov 28, 2013 will be Sep 25, 2015. This occurs in-between the start of Yam Kippur on Sep 22nd & the start of Tabernacles on the 28th. Many do believe this will be the holy proclamation of the JUBILEE YEAR. It will be 5776, the Year of Light.

Thus Chanukah, as the Festival of Lights has this direct relationship and number associated to it. Many believe that this time period is when the Tribulation Period may possible start. ### STAR OF DAVID

Upon further evaluation of this celestial Chanukah Menorah configuration, the 3 trident stars of Scorpio, Acrab, Dschubba and π along with Antares, the giant red star form an inverted pyramid or triangle.

From 1) Antares to 2) the Ecliptic near the Sun to 3) the base of the horizon of the Earth, is a configuration of an upright pyramid or triangle as well.

These 2 triangles or pyramids are side by side to each other but when inverted and overlaid to each other, form a Star of David pattern

### STAR'S NAME ASSOCIATIONS

The celestial Chanukah Menorah also has possible prophetic interpretation purely based on the meaning of the star involved with ISON's alignments. The stars are Acrab, Dschubba and Antares. The stars that make up the points of this celestial Chanukah Menorah that occurs on the 1<sup>st</sup> day of the Festival in addition to the celestial Menorah itself allude to 1) a servant-Shamash 2) a wounding-Antares and 3) a crown-Dschubba.

Applying elementary Biblical known themes to this picture, it could be said that this 'sign' then is referencing to when GOD the SON, Jesus Christ the Messiah came to Israel as a Servant, was wounded (crucified) but will eventually be crowned. Perhaps the crowning of the Messiah of Israel, the Son of David will take place at a future Chanukah Festival season after His return.
