*Our products are made right here in South Carolina.*

*We are proud of what we do and we want you to be proud of  
your window fashions!*

*If you have any questions or concerns, please let us know.*

## CLEANING AND CARE INSTRUCTIONS

### Wood Blinds

- Excess moisture is wood's worst enemy, so avoid getting wood blinds wet.
- To dust them, use a clean, soft cloth, a feather duster or a vacuum brush. Start with the lowest slat and move up.
- Weekly cleaning is best to prevent a buildup of dust.
- Do not use chemicals or abrasives.

### Faux Wood Blinds

- Dust faux wood blinds using a clean, soft cloth, a feather duster or a vacuum brush. Start with the lowest slat and move up.
- Spot clean using a mild detergent with warm water on a slightly moistened cloth, blotting dry afterwards.
- Weekly cleaning is best to prevent buildup of dust.
- Do not use chemicals or abrasives.

### Woven Woods

- Bamboo and Wood material - Dust woven wood shades with a soft cloth, feather duster or a vacuum brush.
- Do not use water or chemicals on your shades as it can discolor the finish, or cause mold.
- (For grasses, see below) Start at the bottom and move upward. Weekly cleaning is best to prevent buildup of dust.
- Woven Woods (Grasses) - Grass material that is highly textured can easily snag. Use the brush attachment on the vacuum. The soft brush attachment will gently lift dust away. Just be sure to support the fabric from behind as you vacuum so that it doesn't get sucked into the hose. Start at the bottom and move upward.
- Weekly cleaning is best to prevent buildup of dust.

### Roller Shades

- Solar shades can be used indoors or outdoors because they are durable and waterproof. If an outdoor shade gets wet, roll it down and let it dry completely before rolling it up again.
- Dust with a feather duster, light cloth, or vacuum with a brush attachment.
- Use a damp cloth to wipe off any remaining dust or dirt. Let air dry completely before use.
- Do not use chemicals or abrasives.

### Wood and Poly Shutters

- On a regular basis, remove dirt and dust with a vacuum.
- If shutters are extra dirty, wipe them down with white vinegar and water solution to keep them clean.
- Avoid using too much of any liquid cleaners on plantation shutters, especially wooden shutters. Liquid cleaners can cause damage over time.
- Do not use chemicals or abrasives.

### Aluminum Blinds

- Dust blinds using a clean, soft cloth, a feather duster or a vacuum brush. Start with the lowest slat and move up.
- Spot clean with mild detergent using warm water and then blot them dry.
- Tilt the slats up and down slightly to dust both sides, moving along each slat. Avoid pressing down too hard, so you don't bend or break them.
- Weekly cleaning is best to prevent buildup of dust. Do not use chemicals or abrasives.

## RELAX, WITH YOUR MARLEIGH GUARANTEE

At Marleigh, we are proud of our craftsmanship. We will settle for nothing less than your complete satisfaction. To that end, our window treatments are backed with an excellent guarantee.

All wood, faux wood, vertical, roller shades, woven woods, 1" and 2" aluminum and shutter products carry a Marleigh Window Fashions Limited Lifetime Guarantee and are warranted to be free from defects in materials and workmanship for as long as the original purchaser owns the product and the following conditions apply:

- The product was properly installed in a residential dwelling
- The product remains in its original installation location
- The product is maintained and cleaned in compliance with manufacturer's instructions
- Material defects are reported within thirty days in order to be replaced

This warranty does not cover any conditions or damages resulting from accidents, misuse, abuse, alterations, improper installation, cleaning or repairs, or normal wear and tear. Normal wear and tear varies from product to product and its usage, this includes but is not limited to cord wear, variations in color or grain, minor warping of wood and vinyl products and fading, shredding or discoloration. Eco-wood, Façade, Vertical vanes carry a five year limited warranty. Returns for the above reasons are not warranted. This warranty is exclusive and in lieu of all other obligations, liabilities or warranties. In no case shall Marleigh Window Fashions be liable for incidental or consequential damages, nor for any other damage, loss or expense associated with such damage. The obligation of Marleigh Window Fashions shall be to repair any defect upon determination that such defect exists and we are furnished with the original proof of purchase. Marleigh Window Fashions is not liable for any shipping, removal or installation costs associated with warranty repairs.
