

IMHOTEP INSTITUTE CHARTER HIGH SCHOOL

ADMISSIONS POLICY for 2017-2018 School Year

Imhotep Institute Charter High School (IICHS) implements its admissions policy using a random lottery and waiting list system. Applications to IICHS are only valid for the school year of the application. Applicants not awarded admission are placed on the waiting list for the duration of the school year. The waiting list does not roll over to the next school year. Students must re-apply for the next school year.

Admissions Lottery and Waiting Lists

The IICHS Admissions Lottery is open to the public. The process uses a randomization software application to select names from all applicants whose applications are received prior to the published deadline. The number of slots available via the Admissions Lottery varies from grade to grade and year-to-year based on the number of students returning. Students selected in the Admissions Lottery are notified via mail and have 30 days to claim their awarded slot by submitting the required documents (listed below). Slots not claimed by the prescribed deadline will be forfeited to students on the waiting list. Students not selected for admission in the Admissions Lottery are placed on the Waiting List **through the end of the school year of application ONLY**. Students must submit an application for each new school year. As slots become available, students are selected from the Waiting List based on the number assigned during the lottery, or order of application thereafter.
