

About Us

Global Commerce & Services, LLC (GCS) is an Information Technology company founded in 2000. The company has provided services in the areas of Systems Engineering and Integration, Software Development, Information Assurance, Cyber Security, Network Support, and Program/Project Management. Our clients include Department of Agriculture, Department of Navy, Department of Army, U.S. Peace Corps, Defense Information Systems Agency, and The National Aeronautics and Space Administration (NASA).

We focus on translating business needs into technology solutions. We understand how crucial it is for organizations and agencies to make the right investment in technology, and that is why GCS partners with clients to provide value added solutions that meet individual business requirements. GCS helps companies modify their business and systems processes to become more efficient and capitalize on their technology investment.

We've been recognized and awarded for our ability to provide exceptional service, and our goal is to always exceed both the requirements and expectations of every project.

We pride ourselves on our ability to deliver projects successfully, with no schedule delays, cost overruns, or late deliverables. Our company is accountable and dependable, with an experienced management team that keeps us up-to-date with industry knowledge.
