Driveway Location
CKRA Mowing

CKRA Snow Removal

## NOTES:

- 1. While the assignment of garage locations are expected to be followed, the Dundee Architectural Control Committee may allow an alternative location on a case-by-case basis. All locations shown on the front property line assume that the driveway is on the same side of the lot as the garage. Side entrance garages will require special consideration.
- 2. Fences and decorative walls shown on property lines are built completely inside the property line of the lot by Dundee.

  Maintenance of these fences and walls will be the responsibility of the lot purchaser. The locations of the decorative walls are subject to change.
- 3. Dundee Developments provides this plan for information only and cannot accept responsibility for errors, omissions or changes either pending or made after this plan was prepared.
- 4. Ascot Link SW allows for a future road connection to the west to allow a possible future extension of Castle Keep (but no connection to Stoney Trail). It will be landscaped in the interim and maintained by the Castle Keep Residents' Association. If this road connection is not required in the future then it will become a residential lot and a home constructed on it.
