

SCAVENGER HUNT EPISODE 5. SOUTHERN OAK TREE CRAFT FOR DIORAMA

- Make a few .5- to 1-inch cuts at the base of an empty paper towel roll for tree roots. Make them thick enough to be able to secure to the surface.
- Bend them up so they will lay flat on the surface.
- Cut longer strips on the other end of the paper towel roll for the branches.
- Twist the branches.
- Collect leaves from your yard and glue, tape or staple on the branches. Or you can make paper leaves, orchids, or acorns on colored construction paper or regular paper that you color. You can drape with bits of Spanish moss or long grass for a Spanish moss effect.
- Glue on the tree roots toward the back of the Harwood Hammock (egg shell carton)
