Introducing a new concept in bow design . . .

# INDIAN *Glassflex*<sup>®</sup> LAMINATED BOWS

*Backed by 35 years of archery experience!*

An entirely new design technique perfected by Indian technicians and bowers has resulted in custom quality laminated bows that are unsurpassed in the archery field today.

No detail has been spared to make these bows the finest you can obtain. They feature "multiple tapered laminations" which insure silk-like smoothness in draw, extra cast and eliminate the limb twist and glass rupture so inherent in competitive models. This design results in a shooting instrument and weapon capable of high velocity and fire-power . . . the ultimate in quality and perfection!

Only the finest materials are used in the manufacture of these new bows. Rare woods from all over the world have been selected for strength, weight and beauty of lamination.

The best fiberglass and modern adhesives have been carefully chosen to give permanent strength and bonding. Each manufacturing operation is carefully controlled and strict final inspection assures a perfect product in every way.

## INDIAN *Iroquois*

**No. 269 \$99.95**  
LENGTH: 66"  
PULL WEIGHTS: 25 to 60 lbs.  
DRAW: 30"

There is no finer bow anywhere! Nothing has been spared to make this the "bow of tomorrow." Rare, exotic imported woods include black ebony for use in the handle section for weight and beauty plus stability. The custom grip has the only true thumb rest on the market. Multiple tapered laminations of Osage Orange (which has long been acclaimed as the finest of bow woods) are featured in this model. Careful hand craftsmanship of experienced bowmakers is combined with these superb materials to make this the bow which you will have to see and test to appreciate. 8½" sight window.

## INDIAN *Warrior*
