

Travelers Rest  
Resort & Golf Course  
Summer Updates

August 2018

Well Summer is more than half way over but the work still continues ,below you will see pictures of the Snack Schack area and some improvements . the first picture beginning from the left are the new benches for the pavilion (purchased by the Snack Schack) notice they can be a bench or a table and two together make a picnic table, the second picture is the new ADA porta-potty and walkway , and the third is the new grill and cover (purchased by Party Planners) for the pavilion.

Her you see a picture of the Labor day cookout at the Snack Schack, The Maintenance Dept Smoked the Chicken (120lbs) and made Cowboy beans and everyone brought a dish to pass. What a wonderful turnout ,everyone had a great dinner.

We took the old bi-fold doors off of the service window in the Kitchen and had a roll-up food service door installed , this helps a lot in the kitchen with space (there are no door hanging in the way )

To the right the first picture is the new Parkers cart ( 4-seater) and the second picture is the old parker cart witch is now the Ranger cart for the Golf Course .

To the left is a picture of the new Boardwalk that The Maintenance Dept. constructed this summer (70ft long with safety railing) also several of the deckboards were replaced on the old boardwalk

Busch Hall floor has been finished, it had its yearly strip, clean wax . also done were the Citrus Center, Paul Ruth, Library and Kitchen

Two new Hydrants were installed this summer, one on 21-16 and another on 11-18. these new hydrants will help our Fire Dept. In case of fires, with the smaller truck it has less capacity

Well that's it for now,  
see ya next month
