

SENTRICON IS SMART SCIENCE

The Sentricon® System destroys the Termite Queen and her colony without disrupting your lawn, landscaping or foundation. That's because there is no structural drilling or trenching and digging around your foundation. The stations are simply put in the ground around your home, forming a protective ring. Termites prefer the bait found in Sentricon more than wood, and its active ingredient, noviflumuron, prevents them from molting.

WHEN THEY CAN'T MOLT, THEY DIE. WHEN THE COLONY DIES, THE QUEEN DIES.

1 INSPECT

A Certified Sentricon Specialist™ checks for signs of termites.

2 INSTALL

Stations are placed around your home, and the bait immediately begins working.

3 SERVICE

Your Certified Sentricon Specialist makes sure the stations are always working.

ELIMINATE THE COLONY.
