If a corporation makes the proposal, an authorized officer should sign the proposal in the corporate name. If the proposal is made by a joint venture, the full names and addresses of all members of the joint venture should be given and one authorized member should sign the proposal.

5. WITHDRAWAL & INCOMPLETE PROPOSALS

- A. Proposals may be withdrawn upon written request received by FEC before proposal closing. Withdrawal of a proposal does not prejudice the right of the Proposer to submit a new proposal, provided the new proposal is received before the closing date.
- B. Incomplete proposals may render the proposal non-responsive.

6. MODIFICATION OF PROPOSALS

Any proposal modifications or revisions received after the time specified for proposal closing may not be considered.

7. UNBALANCED PROPOSALS

FEC may determine that an offer is unacceptable if the prices proposed are materially unbalanced. An offer is materially unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated in relation to cost for other work.

8. DISCLOSURE OF PROPRIETARY INFORMATION

- A. A proposer may restrict the disclosure of scientific and technological innovations in which it has a proprietary interest, or other information that is protected from public disclosure by law, which is contained in the proposal by:
 - (1) marking each page of each such document prominently in at least 16 point font with the words "Proprietary Information;"
 - (2) printing each page of each such document on a different color paper than the paper on which the remainder of the proposal is printed; and
 - (3) segregating each page of each such document in a sealed envelope, which shall prominently display, on the outside, the words "Proprietary Information" in at least 16 point font, along with the name and address of the Proposer.
- B. After either a contract is executed pursuant to this RFP, or all proposals are rejected, the proposals will be considered public records open for inspection. If access to documents marked "Proprietary

Information,” as provided above, is requested under the Missouri Open Records Law, Section 610 of the Revised Statutes of Missouri, the FEC will notify the Proposer of the request and the Proposer shall have the burden to establish that such documents are exempt from disclosure under the law. Notwithstanding the foregoing, in response to a formal request for information, the FEC reserves the right to release any documents if the FEC determines that such information is a public record pursuant to the Missouri Sunshine Law.

Each technical proposal must be so specific, detailed and complete as to clearly and fully demonstrate that the Proposer has a thorough knowledge and understanding of the requirements and has valid and practical solutions for technical problems. Statements which paraphrase the requirements or state that "standard procedures will be employed" are inadequate to demonstrate how the Proposer will comply with the requirements of this procurement.

functions are specifically mentioned in this RFP or not. The proposer should clearly identify any omissions to the requirements set forth in the RFP.

4. BASIS FOR CONTRACT AWARD

- A. This is a “Best Value,” competitive, negotiated source selection. Award of contract, if any, will be made to the responsive and responsible Proposer whose offer conforming to the solicitation is judged by an integrated assessment of the evaluation criteria to be the most advantageous to the FEC, price/cost and other factors considered. For this procurement, all evaluation factors other than cost/price, when combined are more important than cost/price.
- B. FEC may select other than the lowest cost/priced, technically acceptable offer if it is determined that the additional technical merit offered is worth the additional cost in relation to other proposals received. FEC is more concerned with obtaining excellent technical features than with making an award at the lowest overall cost/price to the FEC. However, the FEC will not make an award at a significantly higher overall cost to achieve only slightly superior technical features.
- C. Offerors are further cautioned that FEC may not necessarily make an award to the Proposer with the highest technical ranking if doing so would not represent the best value to FEC. For evaluation purposes, if proposals become more technically equivalent, then cost/price becomes more important and may be the deciding factor.

5. EVALUATION CRITERIA

Proposals will be evaluated by the evaluation committee on the basis of the following criteria, listed in order of importance: Selection Criteria

EVALUATION CRITERIA	EVALUATION POINT VALUE
Method of Performance and Reporting Capabilities	30

B. After receipt of the results of the proposal evaluations, interviews, and BAFO(s), if applicable, the evaluation committee will complete its evaluation and recommend for award the responsible proposer(s) judged to provide the best value to the Full Employment Council.

1. By signing and submitting this proposal, the prospective recipient of Federal assistance funds is providing the certification as set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. 3. The prospective recipient of Federal assistance funds shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective recipient of Federal assistance funds learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
4. The terms “covered transaction,” “debarred,” “suspended,” “ineligible,” “lower tier covered transaction,” “participant,” “person,” “primary covered transaction,” “principal,” “proposal,” and “voluntarily excluded,” as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549.
