

MAKE-UP AFTERCARE ADVICE

MAKE-UP AFTERCARE ADVICE

- Be aware of allergic reactions – in the event of this remove with damp cotton wool and apply a soothing lotion such as calamine lotion.
- To re-apply lipstick, do this with a lip brush, apply lip gloss and blot.
- Avoid activities such as swimming, saunas, steam rooms and other hot environments.
- Avoid touching the face.
- Use a spray fixative or setting powder to make the products on the face last longer.
- Use blotting sheets/paper that soak up excess oil on the skin without ruining makeup.
- Removal of products – use eye make-up remover and cleanser.
- Try to cleanse, tone and moisturise your face twice a day using products suitable for your skin type.
- Give your skin a day of 'rest' so it can return to its normal pH and prevent the chance of break-out and stress of the skin!
