

# THE VIRGO-ORION CONNECTION II

The purpose of this illustration is to convey what the sky will look like begin in the month of September 20, 2017. What is noticeable about this time and place cosmologically is that aside from being approximately 3 days out from the Great Virgo Sign of Revelation 12; it occurs on Rosh HaShanah or YHVH's Head of the Year. What is highlighted is that during this time, is that Venus is conjoined with the Star of the King, Regulus in the constellation of Leo. As the depiction renders the Galactic Equator with the maximum noted to be the planet Venus. It is also at the approximate intersection of the Galactic Meridian. The other significant astronomical alignment is that the Moon is conjoined with the Sun at the head area of Virgo. The 3 main planets of Virgo-Mars-Mercury are in the process of positioning themselves in the alignment that mirrors the Great Pyramids of Giza and that of Orion that is opposite across the Galactic Meridian on the other side. The Planet of the Messiah or Jupiter at this point in time is approximately 11 days out from being 'birthed' out of the 'womb' of Virgo.

The illustration of the Pyramids are not to scale as the constellations are skewed to include the breath of the East to West coordinates. The Ecliptic is not shown but the Galactic Equator is instead where it bisects Virgo and Orion.

It appears that Orion is somehow and in some way connected to the Great Virgo Sign of September 23, 2017. What is rather unique is that in this skewed rendition of the entire directional coordinates, the Sun is in approximate phi ratio to the coordinates whereby the Moon is on the opposite side of the sky in the West and Virgo is in the East.

**JUPITER**  
'Birthed' already  
on Sept 9, 2017

Furthermore the phi ratio of the Sun is in direct alignment to the Sphinx below and Leo above.

| Typology   | Object             |
|------------|--------------------|
| ISRAEL     | Virgo              |
| Sphinx     | Leo                |
| Pyramids   | Orion              |
| Nile River | Milky Way-Eridanus |

## Great Pyramid

## SEPTEMBER 20, 2017

### ROSH HASHANAH (NEW YEAR)

- @ 0 Hour with atmosphere stripped away
- looking south from Giza Plateau
- Vela rising over horizon
- Orion setting in the West
- Venus is at Regulus
- Moon is conjoined with Sun
- Jupiter already 'birthed' 7 days out
