Sunday, March 5, 2017
7:00 – 10:00 AM ♦ Morning Session

American Session I: A Fresh Look at TAVR / Is TAVR Ready for Prime Time?
Chairmen: Augusto D. Pichard, MD, FACC, Raj Makkar, MD, FACC

Intermediate and Low Risk TAVR
Augusto D. Pichard, MD, FACC

TAVR is Ready for Prime Time
Raj Makkar, MD, FACC

Wait a Minute, There are Still Questions to Be Answered
Brian Bethea, MD

Portico Valve
Raj Makkar, MD, FACC

Mini Symposium on Neuroprotection

What is a Stroke?
Wade Smith, MD

Post TAVR Abnormalities by DWI MR – What do They Mean?
Christopher Hess, MD, PhD

The Problem is Bigger Than We Think
Daryl Gress, MD

Does Neuroprotection Prevent Cerebral Embolization?
Samir Kapadia, MD, FACC

Panel Discussion

Is it Time to do Low and Intermediate Risk Patients?
Daryl Gress, MD, Samir Kapadia, MD, FACC, Raj Makkar, MD, FACC, Augusto D. Pichard, MD, FACC

When is the Appropriate Time for Interventionalists to Stop Cath Lab Work?
Augusto D. Pichard, MD, FACC
Oral Abstract Session I

Endovascular Selective Cerebral Hypothermia – First-in-Human Experience
Ronald Jay Solar, PhD

Non-TAVR Structural Heart Disease

Paravalvular Leak
Samir Kapadia, MD, FACC

LA Appendage Closure
Brijeshwar S. Maini, MD, FACC

Post-MI VSD Closure
Saibal Kar, MD, FACC

Percutaneous Tricuspid Repair
Brijeshwar S. Maini, MD, FACC

Mitral Valve Disease

Overview of Mitral Space from a Surgeon’s Perspective
Brian Bethea, MD

Overview of Mitral Space from a Cardiologist’s Perspective
Raj Makkar, MD, FACC

Cardio AQ Valve
Saibal Kar, MD, FACC

Tendyne Valve
Augusto D. Pichard, MD, FACC

Mitral Clip
Saibal Kar, MD, FACC
“Demonstration” Cases

When Andreas Gruentzig started his live courses in 1978, he called them “Demonstration” courses. These carefully chosen words meant that the live cases were intended to show what could be done by an expert. They were not intended to necessarily teach how to do it. Our highly skilled faculty members have done some truly amazing structural cases. I have asked them to present some of these exotic cases to demonstrate what can be done by true experts. There should be no expectation that an average practitioner can do these cases without additional training.

Presenters:
Samir Kapadia, MD, FACC, Saibal Kar, MD, FACC, Brijeshwar S. Maini, MD, FACC, Raj Makkar, MD, FACC,

6:00 – 6:30 PM
Special Lecture on the History of Angioplasty

The Origins of Coronary Angioplasty – Some Little Things You Have Never Heard Before
Philippe Gaspard, MD

Video from Last Gruentzig Course in Zurich, August 1980
Monday, March 6, 2017
7:00 – 10:00 AM ♦ Morning Session

Please note that the Monday, March 6th presentations are not included in CME/CEU hours.

The Presidential Voting Process in America: History, Explanation of Why the System Originated and Why It’s Still in Force
James R. Margolis, MD, FACC

New this year!
Active interaction between faculty, attendees and industry leaders

The rapid development of interventional cardiology – both coronary and structural – has been a result of close collaboration between interventional cardiologists and industry. Without this collaboration we would still be in the 1980’s. Over the years we have lost that intimacy with industry that had been so vital in the past.

In 2017, we are making a major effort to reconnect. The two Monday sessions are devoted to direct interaction with senior management from device companies large and small. I have asked CEO’s from various companies to present their visions of the future and how they plan to meet future challenges. Although each speaker has been asked to speak on the same topics, I am expecting an eclectic collection of presentations as diverse as the companies from which the speakers come.

Monday’s schedule has included a surfeit of discussion time. Audience interaction is strongly encouraged. The purpose of this exercise is to expose a large sampling of the top interventional cardiologists from 25+ countries to a diverse group of leaders of the medical device industry. We can all learn from each other. When we better understand the challenges these companies face – and when they better understand the problems we face and where we need help from industry – the processes of innovation and advancement will proceed more rapidly to everyone’s mutual benefit.

Chairman:  James R. Margolis, MD, FACC

The Gut Wrenching Experience of Entrepreneurship
Clive A. Meanwell, MB, ChB, MD
The Medicines Company

Jamey Jacobs
Abbott Vascular

Scott Huennekens
Verb Surgical

Chris Richardson
