Deodorizing delivery system for the generation of chlorine dioxide for control of mold, mildew, chemical, and other odors in confined spaces.

TIPS FOR APPLICATION

- 1. Odor1 Room Refresh kit treats one 20x20 room with an 8' ceiling**
2. Always clean out the room prior to application. Remove anything that can be washed such as pillows, rugs, throw blankets, and linens.
3. Never use when surfaces and/or carpeting, walls, or flooring is wet.
- 4. Do not paint walls prior to treatment.** This will trap odors in the wall surface.
5. Open all drawers and cabinet doors so Room Refresh Premium can penetrate easily.
- 6. Make sure room is completely sealed prior to beginning application. All windows and entrance doors must be shut. It is a good idea to use Painter's Tape to seal around door frames.**
7. *Dispose of all packaging and remaining contents into a recycle bin or trash can.

6/22rev

Prior to application, wear proper PPE: Safety Glasses, Gloves, and an Apron.

NEVER LEAVE PETS OR REMAIN IN A ROOM DURING APPLICATION

Directions

1. Remove contents from the clam shell (plastic container).
2. Seal the room completely. Close all windows and entrance doors upon application. Odor1 recommends the use of Painter's Tape to seal around all entrance doors frames.
3. Place the Odor1 orange launcher tub with the red protective bottom on a **flat surface** in the center of the room.
4. Using the 2oz measuring cup included, fill with **lukewarm or room temperature water**. Pour into the bottle marked "**PART 1**". Recap bottle and shake lightly. Pour directly into the Odor 1 orange launcher tub.
5. Using the 2oz measuring cup included, fill with **lukewarm or room temperature water**. Pour into the bottle marked "**PART 2**". Recap bottle and shake lightly. Pour directly into the Odor 1 orange launcher tub.
6. Leave the room and allow Room Refresh Premium to work for at least 24 hours. Approximately an hour before treatment is complete, turn on the heat or air conditioning system to allow Room Refresh Premium to circulate through the ventilation system. Odor1 recommends changing any HVAC filters prior to application, if possible.
7. When application time is complete, open all windows and entrance doors and use fans to assist in airing out the room.
