

AKE Environmental is currently looking for an Operator that has a Wastewater 1 certification, to operate privately held wastewater treatment plants in Northeast Ohio.

Our perfect candidate is:

- Responsible and detail oriented
- Has excellent interpersonal and customer service skills
- Has good theoretical knowledge and critical thinking skills
- The ability to accurately complete written reports and document detailed findings
- Clean driving record with a valid Ohio driver's license
- Able to work unsupervised and follow a structured schedule
- Prompt and dependable in their work habits
- Maintains a professional appearance
- Has the physical fitness to walk, climb stairs, bend, kneel, and crouch as well as the ability to lift 50 lbs. without assistance
- Drug free

Additionally, maturity, integrity and a high degree of ethical behavior is a requirement of this position. Because this position requires visiting multiple sites every day, this position does require considerable driving. Any additional certifications, mechanical or technical skills associated with wastewater and water treatment is a definite plus.

Plants are located in Cuyahoga, Geauga, Ashtabula and Summit Counties.

We pay a competitive rate commensurate with experience and certifications. We have an **immediate** need so please send your resume to akelabresumes@gmail.com!
