

Statement from The Green Party on preventing mass atrocities

The Green Party is part of a global family of Green Parties who put peace, non-violence and ecology at the heart of their political outlook.

Majority rule is insufficient as the basis for resolving conflicts. The Green Party promotes non-violent solutions to conflict situations. The interests of the minority and of future generations must be included in non-violent processes of conflict resolution in order to achieve lasting settlements.

Green MPs will work to prevent mass atrocities, holding governments to account when they turn a blind eye to global suffering. We will not stop until a peaceful, ecologically sound world is established – free of exploitation and abuse.
