**Wait by your phone (and if possible, computer with internet and printer).
After signing in by telephone, your place in line will be held, and your call-back
time will be 15 minutes to 3 hours.**

To be eligible you must:

- Not already have an attorney
- Be a party to or expecting to be a party to a family law case in Vigo, Clay or Sullivan Counties

Please note: The legal assistance provided is only brief advice and help with forms. The attorney will not represent you other than the brief advice delivered during the advising session. The help and advice provided will generally not be a substitute for full representation by an attorney.

Please be advised: Due to the short-term nature of the service, attorneys will not be able to perform a full conflict-of-interest check before helping you. This means there is a chance the volunteer attorney will not realize he or she already represents, or another attorney in his or her firm, already represents, or has represented, the other party in your case. The confidentiality you have with the volunteer attorney will not be imputed to the volunteer attorney's firm, so a different attorney in the volunteer attorney's firm would continue to, or could in the future, represent the other party in your case. Only use this walk-in clinic if this risk is acceptable to you. In all other respects, what you tell the lawyer today will be kept confidential.
