**Sue Huber
Pride Personnel**

In 1995, Susan Huber decided to take her years of experience in the personnel industry and live the American dream. The result is Pride Personnel.

Sue Huber

Pride Personnel is a full-service staffing company offering temporary staffing, temp-to-hire and direct hire placements. The company specializes in personnel with expertise in customer service, secretarial, computer software, data processing, clerical, accounting, general office and telemarketing.

One-of-a-kind customer service has been a key to the firm's success. In just five years, the company has earned and continues to maintain a reputation of honesty and quality. "Because we are locally owned, we are not inhibited by corporate policies unrealistic to the St. Louis business climate," Huber said.

Because of the staff's more than 50 years of combined experience in the industry, Pride Personnel has been able to quickly meet the needs of clients. And unlike many of the large conglomerates, Pride Personnel's original founder is still leading the organization today and is accessible to each and every client.

"The risk that many client companies face with the aggressive mergers, buyouts, and takeovers that are consistently occurring with all the larger firms is nonexistent with our company," Huber said. "Our growth is managed and controlled. Our emphasis is on our associates and our customers.

"We understand the benefit of everyone receiving 'boutique' quality service."
