

*The Greatest Virtue of Divine Love is TRUTH
The Greatest Provision of Truth is Saving Grace
The Greatest Gift of Grace is Redeeming Hope
The Greatest Promise of Hope is Eternal Life*

Greater Expectations!

The Foundation of Hope.. ..is an **Intelligent Gospel!**

Life's timely principles of assurance must be fostered by a *redeeming* spiritual incentive, apart from confounding orthodoxies ..or vain rituals of 'worthification' and appeasement.

'**Rebirth**' fuels a sacred convergence summoned by human remorse, to amend a life gone wrong. It's the profound joy of closing a fatal wound ..*by the Amenity of Someone Else!!*

It *is* the sole cure for a moral dilemma hanging in the balance.. and hinged on that crucial consequence of a **choice** empowered by the heart and soul of man: *to Advance -or Fail.*

Yahshua's Affectual Atonement is the circumvention of Time's Dreaded Consumption!

A Renewed Life comes from purging its wrongs --not by excoriating one's self.. but in *reconstituting* one's terminal self with **-Immanent Hope-** by way of Divine Grace!

Remember.. a cynic never seeks a "just" answer. It's just his own lame excuse to push for the **wrong** answer over & over again. And by doing so, maintain contempt for a cure!

We must override this hardline prejudice with more poignant resolve, allowing *providence* to take hold of one's life. There is absolutely *nowhere* to run to escape death's surcharge.

..Thus.. the only way to counter this accrued debt is at **full face value**: *Atonement!*

It's a disconcerting fact.. that we all fall short of a greater competency, suggesting a more introspective **truth**: that one's Moral IQ is *below* par. --**WE LACK TOTAL SCRUTINY!!**

In addition to this, decisive assessments are often tainted by a false dichotomy known as.. "*the fallacy of the false dilemma*" ..or.. *the "either/or" fallacy*; where *neither* option affords a justifiable end: '*stuck between a rock & a hard place*' / '*damned if I do or don't*'..etc.

As such, one's level of cognizance is reduced by a measure of influence set *against* a more coherent remedy --freely offered to *vindicate* life's insurmountable predicament!

No doubt, our lives are managed by the standard fare of choice: "*this*" -OR- "*that*" -VS- **fate** ...bearing a given consequence. *However..* without *Yahwha's Indwelling Spirit*, man's inhaled allegiance to **SELF** will always choose the more bias path.. ..while humanity runs its own prescribed gauntlet down a perpetual course of "**life vs. death**" ..contracting the lethal pall of humanism.. . *wanting to sanctify this unholy coalition only enhances the rift!!*

"Oh.. to become wise as serpents and gentle as a lamb!"..yet armed to the teeth to face a *morose* angelic foe with full knowledge -strength of insight- and unbound determination!

There *is* **no law** of common sense... But there is, I submit, a keener intuition that comes from pursuing the valiant cause of **Hope** ..*a fervent hope..* rich with **Marshalled Truth**. We can end this pandemic of "**moraphobia**": (*fear of moral intrusion*) --nursing the urge to become an "agent" within oneself, as to decide right or wrong simply by the vain will of a dubious conscience. It's quite evident that mankind must accommodate --as well as be accountable to ..A **Competent Mediator**; An **Apodictic Moral Code**; & **Personal Trust**.

When speaking of the soul's liberation it comes down to either **LIFE** --or *entropy*, i.e.: (nothingness / nihilism / self-annihilation). The choice is plain, as well as **-planned out-** according to a provision that fully engages man's clouded ..*to* most ardent perspective.

The Miracle: YAH proves HIS DEDICATION to us in terms of a more crucial exchange than what's professed by almost every conventional Christian belief or communal faith.

My avowed living legacy is to *stake* that guarantee of.. **Eternal Hope and Restoration** ..on the *FORTITUDE & INTERVENTION of HIS Uncompromised Grace !!*

Spiritual Atonement is the co-sign of YAH's Benevolence! It's a *supreme benefit* derived from an *accommodation* that extends far beyond man's solitary needs.. ..displaying a clearer more perfected purpose.

So.. **take heed**... What transpires is a more *redeeming* gospel!

*Life is too short to be easy..
..but long enough to get right!*
