

Company Profile

Alismail Industrial Co.

Integrated Solutions for Diverse Spaces

Alismail Industrial

A Manufacturing Partner You Can Trust

ALISMAIL INDUSTRIAL CO. - AIC is a pioneer in the manufacturing of project furniture in the Kingdom of Saudi Arabia. Founded in 1972, the company began its journey in a modest factory in Dammam. Over the years, ALISMAIL has experienced remarkable growth, evolving into a major manufacturing company. Today, Alismail Industrial Co. is recognized as one of the largest and most advanced companies in the industry, leading in the production of top-quality project furniture.

ALISMAIL is dedicated to maintaining a high-quality work environment, directly impacting the retention and productivity of its skilled employees. The company's excellence in entrepreneurial performance and vitality has been honored with numerous prestigious awards. Our commitment to sustainable development is well-recognized in the industry. For all these reasons, we take great pride in presenting Alismail Industrial Co. as an industry leader and a significant contributor to the economic and social development of our communities—through its products, success, and responsible vision.

Why Choose Us

Integrated Products

Wood, steel, and integrated products delivered under one coordinated system

Advanced Manufacturing

Consistent production quality delivered through efficient and controlled processes

Design & Development

In-house 2D and 3D design supporting accurate planning and execution.

Project Management

Clear coordination and timeline control from project start to completion.

Logistics & Delivery

Efficient storage, transportation, and delivery across all project locations.

Installation Services

On-site installation and organized handover for ready-to-use spaces.

Quality & Certifications

Products tested and certified to meet international quality standards.

SERVICES

- ✓ Pre-sales & after sales support
- ✓ Budget estimation & cost analysis
- ✓ Design development assistance
- ✓ Products manufacturing
- ✓ Technical support
- ✓ Installation
- ✓ Specifications writing
- ✓ Code compliance
- ✓ Logistic

SPACES

Alismail Industrial delivers integrated furniture and interior solutions across multiple spaces - workspace, hospitality, education, healthcare, laboratories, and public areas. Each space is designed and engineered around its real operational needs: durability, safety, hygiene, comfort, and ease of maintenance. Alismail ensures every space works as one coherent, high-performing environment.

WORKSPACE

A Complete turnkey solutions for workspace environments, delivering furniture and interiors built to handle daily use while maintaining comfort, hygiene, and efficiency. Our manufacturing capabilities, material quality, and ergonomic design standards ensure reliable performance. With support from specialized international suppliers, we integrate high-grade components that elevate durability, functionality, and the overall working experience.

Manager Offices

Workstations

Storage Solutions

Office Chairs

HOSPITALITY SPACE

We deliver fully integrated turnkey solutions for the hospitality sector. We build furniture and interior systems designed for continuous use while maintaining high standards of durability, hygiene, comfort, and aesthetic quality. Our manufacturing capability, material selection, and design precision ensure reliable performance across hotels, resorts, serviced apartments, restaurants, and high-traffic guest areas.

With support from specialized international partners, we integrate premium components that enhance longevity, functionality, and the overall guest experience.

Bedrooms

BRANDS

We create specialized brands that focus on what each space truly needs, clear identity, focused design and reliable quality.

IronMaster

Performance and durability for every workspace IronMaster delivers strong, modular furniture solutions for offices, education, and institutional environments built for productivity, endurance, and everyday use.

Sectors Serve :

Workspaces

Offices and corporate environments that require productivity and organization.

Learning Spaces

Schools, training centers, and educational facilities.

Healthcare

Support Areas Administrative and clinical zones within medical environments.

Public Facilities & Common Areas

Reception zones, waiting lounges, and shared spaces in business and hospitality buildings.

BRANDS

We create specialized brands that focus on what each space truly needs, clear identity, focused design and reliable quality.

WATD

Residential furniture that meets real needs Watd provides essential home furniture with modern design and trusted quality. Practical pieces that blend effortlessly into any space and support everyday living.

Sectors Serve :

Bedrooms

Beds, base units, and storage essentials for restful nights.

Living Spaces

Practical furniture for daily comfort and togetherness.

Hospitality-Level Essentials

Bedding, linens, and comfort items designed to make any stay feel like home.

BRANDS

We create specialized brands that focus on what each space truly needs, clear identity, focused design and reliable quality.

darzah

Soft comfort for your everyday moments
Darzah offers light, personal comfort products memory foam pillows, soft blankets, and more—designed to support rest, relaxation, and daily wellness.

Sectors Serve :

Memory foam pillows
Lightweight blankets

MANUFACTURING CAPABILITIES

We have heavily invested in new, up-to-date sheet metal fabrication machinery, including automated machinery supplied by leading global robotic sheet metal, CNC wooden machinery and powder coating, automated paint system, our manufacturing facility located in Dammam, Saudi Arabia.

LASER CUTTING

Next generation fiber laser cutting of sheet metal products

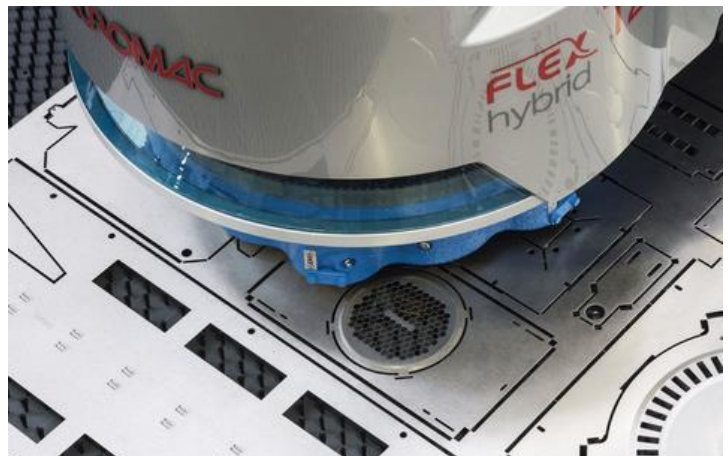

Alismail provides a full range of sheet metal fabrication solutions, with capability to work with a variety of ferrous and non-ferrous materials and composites of varying gauge thickness, from 0.33mm to above 10mm.

Fiber optic laser cutting represents one of the most significant advances in recent times within sheet metal manufacturing, offering significant efficiency benefits.

CNC PUNCHING

CNC sheet metal punching equipment

Our punching solutions and machinery capacity at Alismail's factory ensures delivery of a cost-effective customer solution through optimized productivity, superior reliability and lower operating costs.

CNC STEEL MACHINES

PANEL BENDER

The flexible bending solution

The P2lean is the ultimate Salvagnini panel bender, natively combining productivity, with its automatic bending and handling cycles, and flexibility, with its universal bending tools. Equipped with an automatic ABA blank holder, the P2lean doesn't require re-tooling and completes an average of 17 bends per minute.

CNC MACHINES

Sheet metal with fully automated

Our factory utilizes Computer Numerically Controlled (CNC) technology to create the highest quality steel fabrication. The CNC machines use streams of digital information from CAD-CAM outputs, the result is absolute precision.

FABRICATION

Making the impossible, possible with sheet metal

Alismail provides a range of welding units of varying capacity to handle materials as low as 0.45mm, up to 12.7mm plate.

POWDER COATING

Durable coating solutions for sheet metal products

Alismail believe that the quality of finish for your sheet metal products should never be compromised.

We offer a conveyorized powder coating system with an auto spray booth, or manual batch booth option.

CNC WOOD MACHINES

CNC WOOD PANEL SAWS

Numerical control beam saw

the range of cutting centers designed to satisfy the needs of small to medium-sized enterprises. It is easy to use, has advanced technical solutions and features great standard equipment.

VERTICAL BORING MACHINE

Real-time panel machining center

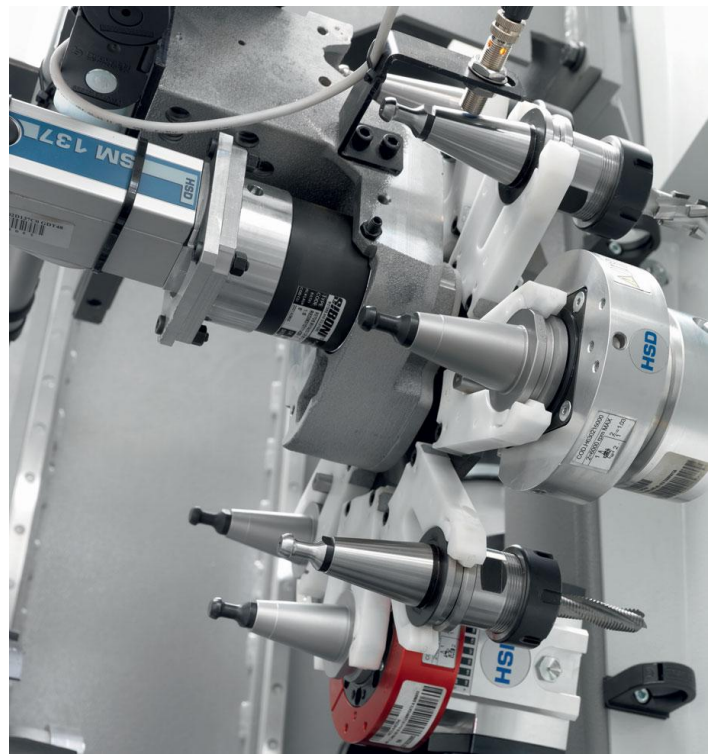

vertical boring machine that supports the machining of different thickness and size formats within a reduced footprint. It is the ideal solution for “just in time” manufacturing for artisans.

EDGE BANDING MACHINES

Automatic single-sided edge banding machines

Our Edge Banding Machines offer perfect edges for discerning wood manufacturers of all sizes. we provides first-class edge processing solutions for a wide range of processes and materials with extreme accuracy and precision.
