

SDCWGA TEAM PLAY 2021
Deb Finlon, Team Play Director

The 2021 SDCWGA Team Play season wrapped up on July 1st with the completion of Regional playoffs at The Vineyard Golf Club in Escondido. 13 teams from 12 clubs participated in the 2021 season. For the regular season, teams were divided into three regions (North, Central and South), and faced each other home and away within each Region. Matches contested both Gross and Net points, with Regional winners advancing to playoffs in Gross and Net format.

FINAL RESULTS

**Gross Team Play Champion
Coronado Team 1**

**Net Team Play Champion
Balboa Park**

Regional Winners – Gross

- North: Encinitas Ranch
- Central: Coronado 1
- South: Steele Canyon

Regional Winners – Net

- North: Temecula Creek
- Central: Admiral Baker
- South: Balboa Park

The playoffs were held as a round-robin playoff format where each of the Regional winners faced each other once. Total points earned across each team’s two matches determined the winners.

The final competition was close, with only 2 points separating the three Regional winning teams in Gross, and 3.5 points separating the three Regional winning teams in Net. With strong performances in their final matches, Coronado and Balboa both stormed back from behind to win their respective championships.

A big thank you to all the clubs and players that chose to participate in this year’s Team Play program. And a special recognition to the Team Captains for all their hard work in organizing their teams, and coordinating the matches during the season. Without their efforts, none of this is possible.

It’s never too early to begin planning for the SDCWGA Team Play 2022 season. An initial organizational meeting will be held this fall for interested clubs, with an eye on finalizing team submissions in early January, and kicking the season off in mid-February/early March. We hope to see even more clubs in the Team Play program in 2022!
