

Our Goal

Friends of Peninsular is a non-profit organization raising funds for Peninsular Academy. We are writing grants, organizing fundraisers and talking to people like you. Educated children are the future of our communities, businesses and upcoming entrepreneurs. The school will provide students in Primary, Elementary and Secondary levels with a specialized form of education that was developed by Dr. Montessori. Unlike traditional teaching methods, this provides students with an interactive approach to learning that focuses on independent problem solving, self-discovery, and natural learning. With your help, Peninsular Academy is being developed.
