- Heavy Duty, Simple Innovative Products that really work!
- Field tested reliability
- Screening Systems & Truck Accessories

## SIMPLE

Tired of not finding a septic receiving station that works and is affordable?

We developed this effective solution to remove trash from septic and grease trap waste. Can be setup virtually anywhere. Simply connect the receiving hose to your pump truck.

Receiving station is designed for gravity offload. Septage and grease are screen filtered to remove 99% of garbage.
