Priscilla Valldejuli (Why I Love Sunrider)

I'm originally from Puerto Rico where I grew up with the knowledge that herbs and plants had amazing health value. When I moved to California, I had no idea how much my life would change and put me on an amazing path to discovering the love of my health life—Sunrider!

I worked in the movie/music industry with beautiful people, such as Goldie Hawn, but long production hours were draining my energy and spirit; I was worn out and looked it! Then I met Sharyn Wynters who introduced me to the beginning of the rest of my life.

I started with the basic five of Calli®, Fortune Delight®, Quinary®, NuPlus®, and SunnyDew®. I remember on the third day how I felt “awake,” as if I had come out of a fog. It was a very funny and strange feeling, but this is the way I felt—awake with the energy, focus, and zest I had been lacking.

But the most amazing difference was the change in my skin! Its radiance and elasticity were enhanced when I threw out my old skin care regimen and started using Kandesn® and Oi-Lin® products. Wow, I got more compliments than ever before!

I'm now approaching my eighth year as a Sunrider and close to turning 60. I have added many of the Sunrider® products to my everyday living. I've introduced everyone in my family to Sunrider. In fact, I recently became a grandmother and look forward to the time I can share Sunrider with the newest family addition. I can truly say in my heart and soul that I'm a changed person from the inside out and it's all due to how I nourish, balance, and cleanse my body, mind, and spirit.

I wish I could get on a mountain top and spread the word of this life-changing company and its products. For not only do they allow us health, but also wealth. What a beautiful way to enjoy life!

I love to dance and with Sunrider I can Salsa and Merengue the night away!
