

## Word for the Week

### God is My Fortress

*"I will say to the LORD, "My refuge and my fortress, My God, in whom I trust!"*  
(Psalm 91:2).

In ancient times, a fortress was connected to fortified cities. These ancient cities protected the inhabitants by building large surrounding walls, which created a fortress that kept chaos out. The fortress walls' constant presence created the safest atmosphere where communities could thrive.

These walls were not only magnificent in size, but the structures were so high it allowed watchman on the walls to see in all directions for miles alerting them with the advantage to see when the enemy was coming. These fortresses provided tremendous defenses against the attacks and attempts from any enemies.

God's view is above any circumstance you ever encounter. When you come to God in faith, you position yourself into His protective hands. It's just like walking into a walled city and leaving the enemy outside the gates.

HE is your Mighty Tower and you can bet He doesn't get surprised by a sneak attacks from the enemy. You might be surprised when things happen, but He isn't. You can guarantee the Lord will fight on your behalf.

Sometimes you may feel like you are up against insurmountable odds. God is your security/fortress when the world you live in seems to be falling apart. Further more, Your Mighty God is the best strong Tower there is and He a place that is well protected.

Today, HE is inviting you to come, bringing all your concerns and be safe within His walls.
