CERTIFIEDMAILSTREAM

Prepare, Track and Manage Certified Mail More Efficiently

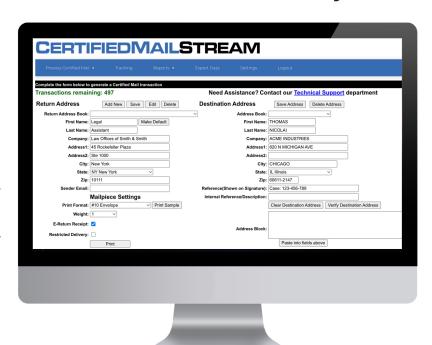

Certifiedmailstream.com is the simple, secure way to prepare, track and manage your accountable mail that saves time and reduces postage costs.

Fast, Simple Preparation

Using the online application, creating a mail piece is fast and simple. Enter the address or select batch print from the address book or file import and press print. It's that quick and simple.

Flexible Print Options

Print the Certified Mail cover page on plain paper, add your documents and then insert them into the double window Certified Mail envelopes available in #10, 6x9 and 9x12 sizes or print to Certified Mail thermal labels and apply to your envelopes.

Option 1:

Print Address Cover Page with Barcode and Insert into Double Window Certified Mail Envelope

Option 2:

Print Barcode on Certified Mail Thermal Labels

Address Validation

Prevent delayed or undeliverable mail by validating addresses prior to mailing, Using USPS CASS address validation, bad addresses or missing information, such as an apartment or suite, can be identified and fixed before mailing. Valid addresses are then standardized and updated with zip+4 optimizing delivery.

Proof of Mailing

Generate and print the USPS Firm Mailing Book, Form-3877 on plain paper.

Simplifying the process, all your mailing information with tracking numbers is automatically filled in, including an optional custom reference field.

Then present your mail with this form at the post office to obtain a dated postmark stamp for legal proof of mailing.
