**HOHL'S FARM SUPPLY**

W11942 Hwy 33 • Portage, WI 53901

608-356-3195

April snow showers still bring May flowers.

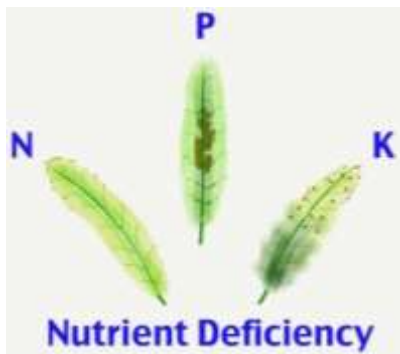

Volume 4, Issue 5

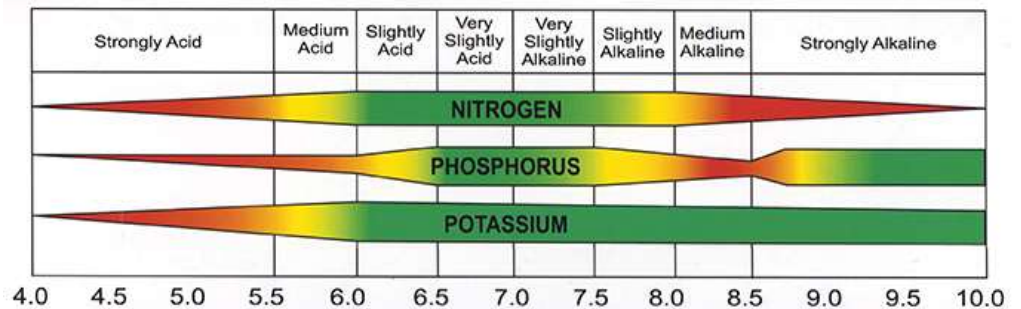

**Food Plot 101:** pH levels and proper N-P-K are the essential building blocks of a good Food Plot. As shown below, the pH levels may be obtained quicker, by using SuperCal 98G (calcitic) pelletized Lime. Poor pH levels can result in diminished seedling vigor, and reduced fertilizer utilization, resulting in lower yields. Additionally, some problem weed species are more competitive at lower pH levels. Proper pH levels will help needed nutrients adequately disperse in your soil (N-P-K). The first letter is N for Nitrogen; this gives the plant a dark green color and allows the stem and leaves to grow. The second letter is P for Phosphorus which helps the root system. The third letter is K for Potassium, which helps the plant overall, giving it the ability to build tolerance to weather conditions and wear and tear it may experience.

### Optimum pH

Chicory	5.5
Clovers	6.2
Fescue	6.0
Oats	5.8
Rapeseed	5.5
Ryegrass	6.0
Trefoil	6.0
Turnips	6.2

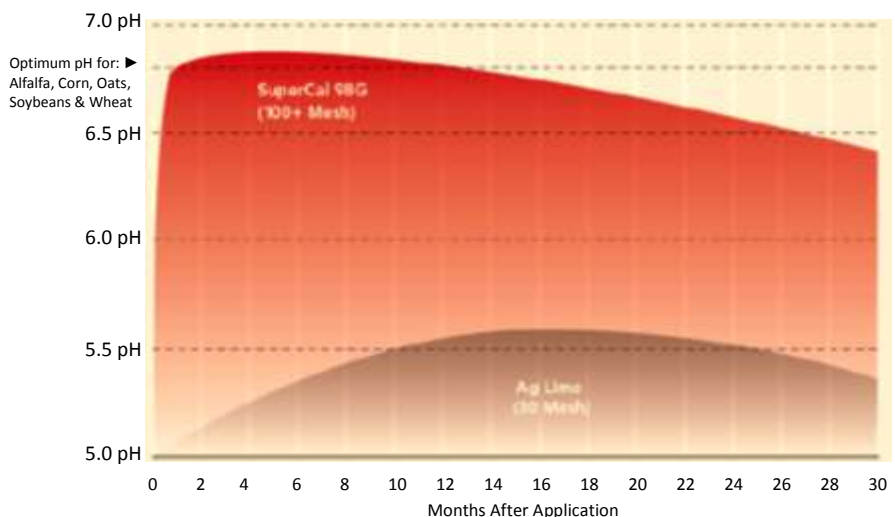

How soil pH affects availability of plant nutrients.

## DON'T WAIT MONTHS TO BRING YOUR pH UP!

SuperCal 98G pelletized limestone ensures more even distribution on soil and solubility in the soil solution, raising pH in a shorter time. **SuperCal 98G neutralizes more acidity and raises soil pH higher than typical ag limes.** The change in pH with 98G will be longer lasting compared to less reactive liming materials.

### New Product: Diatomaceous Earth

Diatomaceous Earth, is an all-natural effective control for crawling insects indoors and out. Great for use in chicken coops for treatment of chicken lice and mites. DE works effectively to exterminate the lice and mites, but remains a safe pesticide to have come in close contact with chickens; it targets both full-grown and gestating mites and lice. It's the absorbent properties of DE that allow it to dehydrate insects, and provide protection from future infestations. It only take ¼ cup per square foot. Sold in 4 lb bags.

Generic Round-up only \$15.<sup>20</sup>/Gal

Sold in 2.5 gal Jugs

**STORE HOURS**  
**MON-FRI 8-5 SAT 8-2**

Not Just a Farm Store...

Pet Feeds, Bird Seeds and More!

- Farm/Lawn and Food Plot Seed
- Soil Testing
- Field/Lawn Fertilizer
- Pet and Farm Feed
- Farm/Lawn Chemicals
- LP Filling Station

Hohl's carries a wide variety of  
**Lawn Seed** by the pound  
or 50 lb bag  
We also carry **Lawn Fertilizers**  
with weed & feed mixtures for  
every need, along with **Merit**  
**Grub Control**

### Join Our Growing Team!

Hohl's Farm Supply is accepting applications for part time seasonal Spring/Summer employment.

#### Warehouse and Cashier positions

If you like a moderate to fast paced work environment, have a positive attitude, are quality conscious, have basic farm knowledge and would like to start working with a well-established, growing company that is focused on Exceptional Customer Service and Employee Team Work, then Hohl's is the place for you.

Applications available:
