

Put erectile dysfunction to

bed

Erectile dysfunction (ED) affects more than 30 million men in the U.S. It is especially common in men with **prostate surgery, diabetes, high blood pressure and obesity**. However, it is now possible to treat almost all men with ED! ED undermines a man's sexual confidence—but successful treatment can help restore it! Many ED treatments are covered by most insurance and prescription plans.

Attend a **FREE** Men's Health Patient Seminar presented in partnership with Coloplast, Dr. Syed, and Dr. Johnston to educate men and their partners about approved ED treatment options. Light refreshments will be served.

Thursday, January 18, 2018

Registration begins at 6:00 p.m.

Presentation begins at 6:30 p.m.

Featuring: Dr. Nabeel Syed & Dr. Margaret Johnston
Urologists specializing in the treatment of ED.

Guest Speaker:

Testimonial from a patient who found
a longterm solution for his ED*

Urology Clinics of North Texas
