2023 Reviews

2/4/23 Place looks great, we will come back. Overall clean comfort feeling. There was one dead bug in the bathroom on arrival. Heat took a little long to come on. Fireplace would have been nice but appears to be before looks and one dead bug by front door. Great idea to have preset games for the family or friends. Supplies well stocked. Again over all we would join you again. Overall a great place to vacation. Wasn't aware of exit time until arriving. Thanks for the vacation place.

2/17/23 Thank you for all accommodations for handicap access. We enjoyed our cabin and we will be back. Can not wait to try it in the summer.

2/25/23 It was really nice to stay here again. There was a small problem with the toilet, but there was someone from maintenance who came to fix it and was extremely nice.

3/3/23 The cabin (Beaver) was very cozy and comfortable. The layout of the living room and the kitchen provided everything we needed, and the bathrooms were spacious. We enjoyed our stay and plan to stay again.

This is our second stay. Where we rented the entire resort. Love it here. Used the pavilion for all our meals and just to hang out. Only improvement I can see is to add an oven to the pavilion kitchen.

Our 3rd stay at Creekside in the pandemic era. Cabin life has helped us to stay sane during the bizarre months we have endured. This February adventure was full of indoor games and snowboard playground time. We look forward to our next visit and wish everyone a healthy and happy 2021.

Beautiful spot. We sat out by our campfire for 3 hours. Our old golden retriever loved it too.

Thanks for the hospitality, have a drink on us!

We have been here twice and each time was an excellent experience. The cabins are well taken care of and the grounds are beautiful.
