

EARTH CHAKRAS

ENERGY POINTS AND LEY LINES

Fingerprint of GOD's Creation

by Luis B. Vega

vegapost@hotmail.com

www.PostScripts.org

The purpose of this study is to present how certain Earth Pressure Points, 'Chakras' and Energy Ley-Lines influenced certain Ancient Temples, Ziggurats, or Pyramids that had been built. What all these Sites around the world have in common, is that they all have a Mathematical Function of the Golden Ratio and Sacred Geometry or an approximation of it. These in turn are said to influence Portals or 'Gates' at which point, Theoretically, one can pierce through the Dimensions of Space and Time.

The Earth's Energy Points or Chakras as some call it and the concept of the Earth's Vortices will be briefly explained later as they relate to the Anthropomorphic Concept of Christ's Body. The Earth's Energy Vortices and Ley-Lines will also be shown to have Direct Relationship between the Human Form/Body Circuitry to that of the Earth Energy Currents that are experienced on Earth, like the Bermuda Triangle for example. In essence the Human Body is indeed a 'Temple' as much as the Pyramids and Ziggurats. It is believed by some that the Human Body is a Microcosm of the Earth that mirrors the Macrocosm of the 'Universe' in terms of its Patterns and Circuitry.

This study will present the Notion that the Golden Ratio Coefficient is the 'Signature or Fingerprint of the Creator', YHVH of the Bible as witnessed in the dimensions as much as they appear to have been in proportion to the Dimensions of Christ's Form. The Earth-Man Circuit Theory incorporates the 4 Main Factors that constitute the Circuitry in one's Interpretation. They are the following.

- 1) *the Golden Ratio*
- 2) *the Earth's Energy Points or Chakras*
- 3) *the Earth's Vortices Theory*
- 4) *Sacred Geometry*

Perhaps such are Keys that open these Pressure Point Portals or 'Doors' that converge and pierce Dimensions. The Theory suggests that there is a Link between the Sacred Geometry of the Tree of Life - Flower of Life Motif and the Anthropomorphic Man that one conceptualizes, compared to the Earth. In essence, the Tree of Life Geometry Matches the Proportions of the Human Body. This Match is consistent in reflecting that all of the 4 Factors that constituted the Dimensions of the Cosmic Christ Body Pattern one will try to explain exists. And that the Universe, the Solar System, Earth and the Human Body are all patterned after. They are based on Frequency and Resonance, etc. In terms of 1 aspect of this Energy flowing within this Earth-Man Circuitry is the example of the Energy the Earth produces due to the Earth's Tilt that produces the 4 Seasons.

Earth-Man Circuit Theory

The Energy Points correspond to the 188 Day Cycle Pattern that is a Ratio of Phi and Pi divided by a Year. One is arguing that the Earth Energy Points or Chakras correspond to the Human Body's Pressure Points that also occur in proportion to the Golden Ratio. Taking this into account, the Measurements and Cycles of this Earth-to-Man Energy Circuitry appear to correspond with certain Energy Points and pressure points of the human form/body itself. It is why, for example, Women have their Menstrual Cycle, precisely in a Monthly Cycle. Is that just mere happenstance or an Effect of Evolution? No.

$\Phi/\pi \times 365 \text{ Days} = 188 \text{ Day Cycle}$

$\Phi \text{ Phi} = 1.1618003399$

$\pi \text{ Pi} = 3.1415926535$

Why this Earth-to-Man Energy Circuitry is brought-out, is that such Pressure Points or Chakras correspond to 'Gates' on Earth as they are in 'Heaven' and in one's Human Body. In general, one's Earth-Man Circuit Theory only seeks to postulate overall that there is indeed Intelligent Design behind these Corresponding Patterns and Cycles in proportion to the golden ratio. One is only relating how the Earth has Symmetry and Circuitry corresponding to that of the Human Form/Body in terms of Energy Vortices and Pressure Points.

On Earth, one contends that these 7 Pressure Points correspond to the 7 Mountains or Areas on Earth where the Energy travels through the 'Circuit'. This Pattern, in turn is mirrored in Mankind's Human Form or Body in how it too has a Circuitry of 7 Chakras or Pressure Points of Energy. Afterall, the Human Body is 'Electric' and based on Frequency, etc. The Point is that such Patterns are consistent to the degree one is comparing, the Measurements of the Human Form that is reflected in part or in whole on Earth. One also contends that this Earth-to-Man Circuitry has a Direct Relationship to Science and Astronomy. How so?

It is understood that the Known Cosmos or Universe is supported by Frequency and Energy Fields for example, i.e., Chakras. The whole universe really should be called the Electric Universe because the Planets appear to the Naked Eye to be supported by 'Nothing'. But it is because the Naked Eye can only see within a very limited Range of the Light Spectrum. It is conjectured that the Planets and the Stars or Suns are held by the Ether, or Black Matter.

In like manner, many cultures especially those of the Orient have long studied this knowledge of Invisible Energies or 'Currents' as it relates to the Human Form/Body Circuitry. This Knowledge is not considered a 'True Science' by the West. Nonetheless, it is self-evident that the Mathematical Fingerprint in Creation of Intelligent Design is seen in this Earth-to-Body Theory. This Chakra Phenomenon cannot be a mere Factor of Random Selection or a particular Property of the Evolutionary Process. Ancient Civilizations had a perfect understanding of these Metaphysical Constructs as they built their Sacred Centers of Healing.

Earth's and Body Pressure Points

For example, it was and is through Music, Incantations, and/or Worship that produced Healing Properties to the Body. In reality, such People were just using such Mathematical Properties in conjunction with Sacred Geometry, in line with Earth's ley-lines and in Harmony with the Human Body to Heal and repair, both the Earth and the Human Body, etc. Some examples of these Sacred Healing Places are the Great Pyramid, Stonehenge, Angkor Wat and Teotihuacán etc.

Although in Today's Terminology, such Knowledge would not be considered a 'True Science', such Knowledge has always been used by the Rulers of Earth. This Privileged Class, that is defined unto themselves build their Monuments, Skyscrapers and even HAARP Sites based on these 4 Principles of the Earth-to-Man Energy Circuit Theory. Palaces and Military Bases all have a connection to certain Latitudes of Energy Line and Earth Pressure Points. To the Ancient Civilization of the East, these locations were called Chakras.

They mainly pertain to the 7 Energy Points of the Human Body. But one's Theory is that there are 7 Corresponding Earth's Chakras or Pressure Points in relation to Earth's Energy Lines. Chakra means 'Wheel' in Sanskrit or a 'Circle' as in a Vortex connected to a Circuit. Presuming a Globe Model, the Earth rotates in such a fashion that it is affected by certain forces or 'currents' that are produced by its Rotation. One such Force is Centrifugal, for example.

As the Earth tilts and rotates, these Chakras or Energy Pressure Point and Ley-Lines are created. This is due in part to Earth's Size, Resonance and Magnetic Sphere come into play. And these are the Sacred Places Mankind has built their Sacred Temples. It is to feed off the Frequencies that produce Resonance to Heal and Repair, ideally. Thus, these Forces affect and influence one's Body, Spirit and Soul. As in Nature, the Cosmos emits certain Energy Ranges of Frequencies. And the Human Body is like a corresponding Receptor or Antenna. It has such corresponding Circuitry, Currents and Energy Points that influence its Frequencies that can translate to Thought and Behavior.

The point being is that certain Geography and Locations on Earth have been recognized as centers where Key Buildings or Regions are designated, perhaps even the very dimensions where Matter, Space and Time can be manipulated or altered, etc. The Concept of Human Chakras has long been established and studied since Human History has been written down. It is a Simple Concept that Energies travel throughout the Body in certain Frequencies. These Frequencies, in turn influence certain Thought, behavior or Consciousness. One is just correlating that Notion to how the same Concept of there being such 7 Energy Points on Earth can also do that and is.

These Chakra Energy or Pressure Points on the Human Body function much like Antennas, like that of HAARP that receive and transmit Energy, which is just Frequencies. Likewise, one is just theorizing that such Corresponding Points and Circuit Paths of the Earth have a 'Reception' to the Transmission of Energies that can be picked-up much like an Antenna. And?

Earth's Energy Grids

This Phenomena in turn can affect the People of that Region. One Earth-to-Man Theory is that these Energy Points affect Earth and the Human Body based on the following 4 Factors listed below. For this Reason, many People fear that Governments of the World can use such Technologies to affect a Person's Mind and Body, as in mind control or inducing Infirmities even. However, Ancient Cultures around the World used such Knowledge to Heal and strive to reach a level of what they call 'Enlightened' Consciousness.

- 1) *Color*
- 2) *Sound/Musical Notes*
- 3) *Light*
- 4) *Energy Frequencies*

This is done through the influence or control of the 7 Main Body Chakras. These are recognized and described as being aligned in an Ascending Column from the base of the Human Spine, which by the way has 33 Vertebrae, to the top of the Head. Interestingly, the 7 Chakras are also associated with the 7 Planets and 7 Primary Colors. The following are the 7 Human Face Orifices in keeping with the Pattern of 7.

1. *Right Eye*
2. *Left Eye*
3. *Right Nostril*
4. *Left Nostril*
5. *Right Ear*
6. *Left Ear*
7. *Mouth*

Is this a mere Coincidence? No. The Human Body has 7 Chakra 'Energy Pressure Points', and so does the Earth, in terms of Tectonic Pressure Points and Energy Grids. One argues that these Frequency Forces pertain to Geological Patterns but Meteorological ones in nature. But the Pattern crosses over Eschatologically. How so? If the Earth is alive and conceptualized to be like a Mother, can or will it give 'Birth'?

Prophetically and Biblically how this notion comes into play is that the Bible does describe the Earth in Anthropomorphic Terms; that is as in a Woman giving Birth. And what Event or Birth will that be? Consider the Rapture Event being that Travail and Birthing that the Earth will 'Expel' from its 'Inside' to give Life outside, etc. It is only a crude Metaphor, but the Pressures of the Earth's in terms of its plates, Seas and Quakes, can be seen as a Birthing Process.

It is intensifying on Earth as a Pregnancy of a Woman comes to birthing a Child. Biblically speaking, Jesus foretold that 1 of the Key Signs of His Return would be an intense increase in Earth's 'Pregnancy'. To illustrate this Proportion and Relevance of the Human Body to the Earth, when the Human Form/Body is superimposed onto the World Map, there is striking Symmetry in the Circuitry of where the Earth Energy Point and Vortices are purported to exist around the Globe.

Earth Chakra Points

The Earth Energy Grid Theory is based on how the whole Earth is a Grid where Energy is located at certain Points around the Planet. These Points are 'Portals' that are said to be 12 Geographic Areas distributed on Earth, that are alleged to have Mysterious Magnetic Qualities and Energy Properties energized by Ley-Line Currents. These are said to be of the same Phenomena associated with that of the Bermuda Triangle, or the Devil's Sea near Japan and the South Atlantic Anomaly to name a few. Why such a consideration is noted is that such Chakra Locations are said to configure 'Portals' that open into other Dimensions.

# Place	Color	Gland-Area
1. Mt. Shasta	RED	Anus-Base of Spin
2. Titicaca	ORANGE	Adrenals-Sacral/Sex
3. Uluru	YELLOW	Stomach- Plexus
4. Glastonbury	GREEN	Lungs-Heart
5. Giza	BLUE	Thyroid-Throat
6. Shaftesbury	INDIGO	Pituitary-Mind
7. Mt. Kailas	PURPLE	Pineal-Spirit

If the Geography of such Locations on Earth is influenced by such Portal Phenomenon, perhaps the Resonance of Earth Pattern occurs in the Human Body Pattern. It is also influenced by such a Circuit Configuration of Energy Currents and electricity. In terms of literal Pressure Points on Earth, this can be seen in the Volcanic Activity of the Earth for example. This is not a far-fetched Notion as the numerous Military Agencies from several Nations such as the USA, Russia, Nazi Germany, etc., researched such properties. This Type of Research to manipulate Earth to manipulate Humanity is being researched in the USA to this Day. One such visible attribute of all this type of research is HAARP. This is a Weather Modification System but it is based on Sacred Geometry, Ley-Lines and Earth's Energy Points.

One's Point is that such a Portal Phenomenon on Earth is what can and does open Spiritual Doors to different Dimensions, i.e., CERN. Such Pressure Points or Chakras on Earth can be accessed with the right Combination of Technology and Ritual. If one subscribes to the Creation account from Genesis, then, YHVH, Creator of the Universe, Earth, Angels, and Humanity etc., fashioned the Earth in correspondence to the Human Frame or Body that is a Facsimile of the Creator Himself. In Genesis, it states emphatically that Elohim, in the plural form created Man in His 'Form and Likeness'.

Thus the Human Body that is the Visible Part of the Multi-Dimensional Creation and Design would have been fashioned in the exact Proportion or Dimension of the Creator. This is an incredible Thought to ascertain. This means that Creation: the Universe, the Solar System, the Human Body, Sacred Temples, are but a Divine Reflection on Earth of YHVH. And that the Human Body is fashioned in Proportion, Physically to the Golden Ratio with its 7 Energy Points or Chakras corresponding to the 7 of Earth and the Solar System, etc. They all conduct Electricity as a Receiver and Transmitter and its Design is based on Sacred Geometry and Mathematics. Not a Coincidence. There are the other aspects of the Human Body that astound the Mind.

Earth Portals to Paradise

There is the Biology, the Neurology, the Psychology and the Spirituality aspects of it. The Point being is that the Earth is in Direct Relationship to Humanity, as a closed Symbiotic System. In other Words, Humanity was not created nor designed for no other Place and Time than for Earth. This Closed System has, for example, specific corresponding Exchanges and Processes, such as Oxygen for Carbon Dioxide. There has to be a precise Air to Water Ratio. And there are other Relationships that as a Human Species, have yet to encounter in other Planets to such a Precise Degree.

If the Judeo-Christian Scriptures declare that as the Human Body was fashioned from that of the Constitution of the Creator, then YHVH, the Creator has factored such Properties even when creating other Dimensions as Matter, Space and Time. Thus, as it pertains to the Solar System, Earth, the Human Body in essence is a Reflection of who and what 'GOD' is or is configured as such. This is not to say that the Creator is a 'Human' or has a Body, physically, but that YHVH is attributed to having such a form.

What is now Astonishing is that YHVH is part Human now. One can think of it this way. Has not Mankind has the insatiable quest to become 'God'? Yet it is GOD who has become Man. That was Jesus. The Bible is very clear that GOD the Son has taken on a literal Human Form, a Physical Body. More than that is now a 'Glorified' Body due to Jesus' Birth, Death and Resurrection; it is not subject to Decay and Death due to Sin.

It is Amazing to contemplate that in Heaven, right now, there is a Physical Human there representing a Redeemed and Gloried Humanity to come later. It is Amazing because the Bible clearly states that no Human 'Flesh and Blood' can enter Heaven. The Bible is very clear that those who follow Jesus Christ are promised such a similar Glorification of the Body, Soul and Spirit. This outcome is what the New Agers and the Occult strive for but by their own means and in some cases by way of Luciferian Mystery Rituals and their Mystery Religions. They will not, cannot bestow such Immortality of the Body that Jesus Christ has made available for Humanity to have, Free of Charge.

As to Mankind being created in the 'Form and Likeness' of YHVH? In the Bible, there are several accounts of Prophets seeing as 'Unto the Likeness of a Man' or what is called a Theophany. The Bible is very clear that YHVH is 'Spirit' and does not have a Physical Body as Humans do. There are many texts that reveal that GOD the Father is 'Spirit'. Yet the Scriptures again do declare that only GOD the Son Jesus Christ took on the Human Form, a Body in the Physical Realm without losing His Divine Attributes to take the place of Adam to redeem or buy back from a place of owing.

This is called the Hypostatic-Union. So, all that to provide some Theological and Biblical Context. The Point is that Earth was made a Habitat for Humanity's Sustainability. It stands to Reason that the Earth would have Corresponding Elements as to the Human Form/Body. The Bible in many places does ascribe a Degree of 'Personification' to the Earth. It is seen in terms of 'Trees Clapping', 'Rocks crying out', all of Creation 'moaning' for the Redemption of the 'Sons of GOD'. The Earth, is as mentioned, seen as a Woman in a Birthing Process, etc.

Earth-Anthropomorphic Man Pattern

For example, 1 Fact is irrefutable in that the Human Body is made from the same Elements of the Earth. Moreover, the Body is made up of 70% Liquid as the Earth is also in Proportion. An example of how Ancient Cultures associated the Earth's Circuitry to that of the Human Form/Body can be found at Luxor, Egypt. The Egyptians erected a Temple-Man on the edge of the Nile River with Human Dimensions. Schwaller de Lubicz, a French Mathematician, measured and mapped the Temple extensively.

The temple was found out to incorporate Sacred Geometry and Human Body Proportions. The point being is that the Ancients knew and used the Key Factor of the Golden Ratio as this Temple of Man mirrored a Facsimile the Cosmic Dimensions to the Terrestrial Coordinates in terms of Latitudes and Longitude on the Earth. They triangulated the Ley-Lines to find the 'Chakras' or Energy Points. Such Temples were aligned to the Energies of Earth's ley-lines and pressure points. If one superimposes the Temple of YHVH, or Solomon's Temple, this same Model corresponds to a Human Body. Coincidence? No.

Schwaller postulated the concept that Man's Body, as a Pattern or Form is at the Center of the Universe. The Luxor and Solomon Temples were and are a Physical Expression of this Correspondence known as the 'Anthropo-Cosmos Man'. The Temple of Luxor and Solomon's Temple also incorporate its Energy Center, or the 7 Chakras of Frequencies, etc. For example the Great Pyramid of Giza, a Temple, correlates to the Earth's Equator both Horizontally and Vertically. It is based on the Energy and Vortices Grid Theory.

Thus, these Types of Temples, among other things, were and are a Symbolic Representation of both the Human Body in Harmony with Earth's Circuitry that affected the 'Consciousness' of that Area, if one wills. It is all based on the Energy Points or Chakras of the Vortices where such Temples of Healing were located on Earth.

The Temple of Man and Solomon's Temple are a perfect example of how Ancient Architecture was used as a Symbolic Representation of the Physical Body used for the purpose of projecting Humanity beyond the Physical Realm. Such Temple Locations are believed to harness the Earth's Energies for purposes Healing the Physical Body and for the Transformation of the Spirit and Soul. What is known is that such knowledge was indicative of the close relationship the Physical Realm was to the Spiritual Realm as it was in the Garden of Eden before Mankind fell into Sin.

According to the Bible, Humanity is the Crown of YHVH's Creation, made in His 'Image and Likeness' of YHVH in the Garden of Eden. YHVH fashioned the 1st Humans out of the Red Clay of Earth and fused it with the very Breath of God Himself, i.e., the 'Chi' to produce a Living Soul from it. Humanity, apart from the Animal Kingdom is both Physical and Spiritual with the distinction that the Spiritual Component was and is designed to have Direct Association or 'Fellowship' with the Creator. This is now only possible through Jesus. This is what distinguishes Humanity from the rest of the Creation on Earth and in the whole Known Universe.

Redemption of the Human Body

Thus, the Human Form/Body is a Physical Manifestation, infused with the 'Fingerprints' of the Wonder of the Creator, YHVH. For example, the Human Cells regenerate every 7th Day and as a whole, the Body 'Mainframe' rejuvenates itself every 7 Years, etc. Due to Sin though, the Human Body is subject to Decay and eventually Expires and will Die Physically. Realize what is already Dead in your Spirit without Jesus' Redemption. Then what ultimately 'dies' is your Soul. This being Separated from the Creator for all Eternity. But all 3 Facets of your Constitution are not Redeemed in Jesus. The Human Body decomposes and its Earth Elements return to the Ground. According to the Bible, this was not meant to be.

The Human Body was designed to last forever physically. Yet Death is in every Facet of every Cell in one's Body and Life on Earth. This Death was a result of Humanity's Choice to go against the Creator's 1 Command and Authority in Eden. Sin had Ramifications and Consequences that started with a Spiritual 'Death' 1st. Physical Death would be next. Physical Death of the Body comes next. It is only a Separation of the Spirit of a Human from its Physical Body, etc. Thus, the Body is very Special and plays a Key Role in how Humanity was rescued, in YHVH's Plan of Redemption. According to the Creation Account, God has now once again enabled the Spirit that is 'Died' in every Human to be 'Reborn'.

It is able to then only Commune or have Direct Contact once more with the Creator, GOD the Father, through Jesus the Son and through the Power of GOD the Holy Spirit. In the Greek, the Word attributed to GOD the Holy Spirit is the 'Pneuma'. All this to say that Jesus Followers await the Redemption of their physical Bodies at the Resurrection of the Dead, at the Time and Place of the Rapture Event. According to the Bible, YHVH's Plan required a Perfect Human Body, without the 'Death' Factor as a Mechanism to provide a Payment or Restitution for the Fallen Race of Adam.

Only Jesus Christ, and no other was immaculately Born with a Sinless or 'Perfect Physical Body'. Jesus had to be Genetically Human but untainted. This was the chosen means to redeem Humanity by YHVH. It took the Incarnation of Jesus and through the Physical Death of Jesus at the Cross to accomplish all this, a New Creation. Now the Death that permeates Creation, in every Living Cell of Mankind and the Earth will be eventually restored. As well, the Eden will be made New at the 2nd Coming of Jesus. The Followers of Christ will be given a New 'Glorified Body' that is Indestructible and Eternal, unaffected by the coming 'Second Death'.

This is the Promise of Redemption, of the Human Body, Spirit, and Soul that also involves the Redemption of the Earth as well. The Earth will also be made 'New' at the End of Human Time. It is when Eternity Future begins, as the Book of Revelation Chapter 22 discloses. In the meanwhile, Scripture admonishes the Followers of Christ to present their 'Body' a living 'Temple', as a Sacrifice in the Service of Worship to the Creator to be Healed, Body, Spirit and Soul.

EARTH VORTICES & CHAKRA POINTS

IN RELATION TO THE EARTH-ANTHROPOMORPHIC MAN

The purpose of this illustration is to present one's Theory that the Earth, as a Living Creation is patterns just like the Human Body, having 7 Main Energy Points or what some Civilizations call 'Chakras'. Chakra refers to a Pressure Point but in this case corresponding to a Frequency, Color and Energy that produces and is manipulated by Resonance. One surmises that the Human Body, created by YHWH of the Bible, fashioned the Human Body and what constitutes Mankind: Body, Spirit and Soul, based on YHWH's 'Image and Likeness'. One has compared the Human Form or Body to show the corresponding Pressure Points on a World Map. In this case, the Earth is also configured to have 7 Main Pressure Points that correspond to 7 Mountains or Areas. They are in fact considered Sacred Sites by those Peoples that inhabit the Areas, etc. Resonance is also a Factor of Light, which is dissected into 3 Components, White Light, Heat and Sound. It is through such Pressure Points or 'Chakras', both in the Human Body and the Earth that through Resonance or Frequencies, Changes occur of Influence is possible.
