

Calling All Interested Business Owners and Nonprofits

Local Girl Scouts and Habitat for Humanity have partnered to ensure a family will have a home next spring. They need your help to make this ground breaking event a success. They are looking for businesses and nonprofit organizations to host the small houses the Girl Scouts built and painted. These tiny houses are actually banks. Community members can put donations in the houses and the Girl Scouts will collect the funds to give to Habitat for Humanity. This project helps to make sure that, during this uncertain and challenging time, one Newark family will finally have a home. A safe place to build memories and weather the storms of life. It is also a service project being organized by Girl Scout Troop# 40743. These sixth grade girls whose troop is a member of the NYPenn Pathways are working hard on making the world a better place by helping one family at a time.

Will you find space on a counter or shelf in your organization for one or two houses? This small action on your part can have a BIG impact on a Newark family. Please reach out to JJ Cotter and help the Girl Scouts and Habitat for Humanity build something wonderful!

We're raising funds to support

Habitat for Humanity
of Wayne County, New York

**So everyone we know
can have a decent place to live**

**Did you know Habitat is
breaking ground in 2021?**

**Habitat for Humanity of Wayne County builds
safe, decent, affordable homes to ensure that
everyone can shelter in place without worry.**

In Spring of 2021, Habitat will welcome community members to attend a ground breaking, the official start to house construction, at their next site at 149 W. Pearl St. in Newark.

Until then, Habitat is raising funds and awareness in order to ensure a successful, timely build!
