Format

David and Lillan will take a maximum of 12 students and place a high value on observation as well as participation. Students will be divided into two groups based on the skills they are studying. Each group will participate with horses for half the morning and half the afternoon sessions, while the other group observes. This gives more personal attention for participants and much less stress for the horses. In addition, David and Lillan will present theory and discussion sessions each day. *BBQ potluck or dinner out Saturday night for those interested!*

Lillan Roquet 3-Star Parelli Professional

When David first saw Lillan, he was deeply moved by her gentle way and close connection with her horse. They taught together at the Parelli Centre in Australia two years ago, and are looking forward to collaborating again for this event, following the Western States Horse Expo in Sacramento.
