

Plantations Two Pool

2020 Season Announcement

General

Safety

- Our overall goal this season is safety
- We will continuously be reviewing state and local regulations and health guidelines
- We are working closely with Georgetown Aquatics and Legal Counsel

Flexibility

- Regulations may change and we will need to respond to those changes
- We will respond to feedback from Georgetown and reserve the right to make modifications to the initial rules we publish
- Thank you for your patience, this is a very new process for everyone!

Requirements

- Patrons who wish to attend the pool will need to sign a waiver
 - Waiver per household that lists out the members of the household
 - Waiver will be available on the Plantations Two Website and should be brought to the pool, extras will be available at the pool (please bring your own pen)
 - Waivers must be brought to the pool by an adult
- Do not come to the pool if you are feeling sick
 - Upon entrance you will be asked a series of general health questions
- You will still need to scan in and the front desk with your pool tag. If you lost your pool tag from last year, replacements are \$10.
- Masks are required at all times except when in the water.

Requirements

- Only 60 people at the pool during any swim time slot
- Different entrance/exit points
- Patrons are required to maintain social distancing while visiting the pool.
- Swim slots will be 1.5 hours long.
 - For example a slot is 12-1:30 p.m. At 1:30, everyone in the pool and on the pool deck will be asked to exit so required cleaning and sanitization can be completed before the 2 p.m. slot begins
 - A slot is not 1.5 hours from the time you arrive
- Slots are first come/first serve. You can come return for a later slot if there is still available space
- Guests will not be allowed this season to ensure all members are able to have ample access to the pool
- We will have greeters at the entrance helping with questions, counts, and while inside the pool to help maintain social distancing and new guidelines

Requirements

- The wading/baby pool is closed for the season
- We will not be hosting parties/large gatherings at the pool this season
- We will have tables only but no seating or umbrellas available. Tables should not be moved as they denote ample social distancing.
- Patrons may bring their own chairs for personal use
- Patrons may bring beverages and small snacks to the pool. We are asking patrons to limit the amount of food brought to the pool and are not allowing food delivery this year.
- Pool toys will not be allowed or provided this year
- We are still gaining an understanding on the regulations around slide use and safety so currently the slide will be closed

Information

- Rules will be sent by email, provided on the Plantations website and available at the pool
- Signage will be available at the pool
- Additional information will be provided during the season if changes are needed
- Information regarding time slots will be posted at the pool and available on the website
- Note: Time slots may change based on feedback from Georgetown Aquatics
