■ Integrated Headrest and Lumbar Support
Where Comfort Meets Ergonomics

The integrated headrest offers natural neck support, ensuring comfort during extended sitting. Designed to encourage healthy posture, it blends elegance with functionality.

The built-in lumbar support aligns with the spine's natural curve, reducing lower back pressure and promoting long-lasting comfort.

Material Options

Choose breathable mesh for a cooler seating experience, or high-density foam upholstery for a softer, cushioned feel. Available in a range of colors and textures to match your space and style.

■ **The Key to Silent and Smooth Movement**

Silent casters ensure soft and noiseless mobility for your office chair. They glide quietly on hard floors, maintaining a peaceful atmosphere in your workspace.

■ **Height Adjustment Control Rod on the Right Side of the Mechanism**

To lower the seat, place your full weight on the chair and twist the control rod upward. Once the desired height is reached, release the rod.

To raise the seat, shift your weight onto your feet and twist the control rod upward again. The chair will rise automatically.

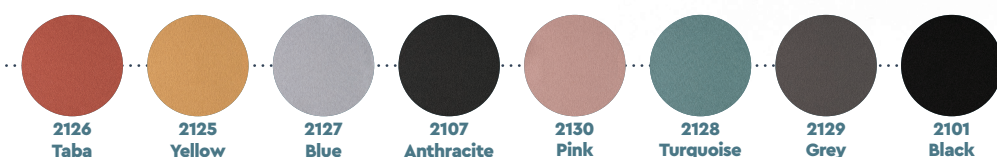

■ **Tilt Mechanism – Three-Level Locking Control Rod on the Right Side of the Mechanism**

Push the control rod forward to activate the tilt lock. Pull the control rod back to release the tilt lock.

■ **Tilt Tension Adjustment Control Rod at the Center of the Mechanism**

Twist the control rod outward to increase tension. Twist the control rod inward to decrease tension.

SPACE.

Comfort shaped by elegance.

Space redefines the seating experience by blending cutting-edge ergonomics with refined design. From the very first sketches, our aim was to enhance comfort while preserving the sophistication and elegance expected from a premium product.

Its flowing, organic lines give Space a sophisticated appearance while providing optimal support for the body through its ergonomic structure. Bringing an aesthetic touch to modern interiors, Space offers every user a uniquely comfortable experience.
