In lieu of holding up the building further CXT is not installing the tile and will put in a urethane floor. CXT states that 99% of the buildings do not have tile. The sight is ready and we are just waiting on the building.

7.2 EDO Dane stated that the Engineer for acoustics for the Gronquist building was here in Arlington and got all the measurements and they have already started building the sound dampening boards. All the materials should be finalized within the next two weeks. Commissioner Greiner asked if the Grand room is the only room we are installing the materials and EDO Dane stated yes.

7.3 Greenbear Energy from British Columbia had to put the presentation for the project in Arlington on hold for a few weeks. Greenbear is a Green Hydrogen Company with two plants. Greenbear is interested in Willow Creek for the hydrogen plant and the Mesa for a data center. They are also interested in talking with the City of Arlington about a large housing project. President Wilson asked how many people will they employ and EDO Dane said at least one hundred. EDO Dane will update the Board as soon as he learns more in the next few weeks.

Commissioner Shannon asked if the Port assigns a Commissioner to each project the Port engages. President Wilson stated the Port has not assigned a Port Commissioner as the Port has had only had one project going at a time and all Commissioners are involved.

8.2 Appoint Budget Officer for FY 2020-2021 – The consensus is to appoint Kelly Margheim as Budget Officer for FY 2020-21. President Shannon asked about the letter from the Office of the Secretary of State that was included in the packet. Admin Margheim explained that the Port receives the letter yearly and the reason being is the Port cannot hire another staff member, so there is no segregation of duties. The only way to resolve would be to add a part time staff member. The Port has many checks and balances and the State and the Auditors are satisfied.

Commissioner Greiner requested to see the contract EDO Dane signed upon hiring. Commission Greiner was curious about extending EDO Dane's probationary period. Commissioner Greiner stated she was concerned about the contract, to the extent that the previous EDO was able to negotiate a substantial payout upon leaving. Vice President Wilson explained to Commissioner Greiner that there were loopholes in the previous contract that allowed for such a payout, loopholes which no longer exists. Vice President Wilson further stated that he did not agree with any extension to EDO Dane's probationary period of 90 days, as Dane was hired and vetted by a previous Board of Commissioners.

Vice President Wilson stated they believe the 90 day probation period was long enough to determine that EDO Dane is producing for the Port. Attorney Cleveland concurred, and stated that the board had cart blanch in determining the probationary period for EDO Dane, and there is no mandatory criteria in which to follow.
