

DURO Power Unit – 90 Degree Bracket Kit

(P/N DURO PU-90 BRKT KIT)

INFORMATION SHEET

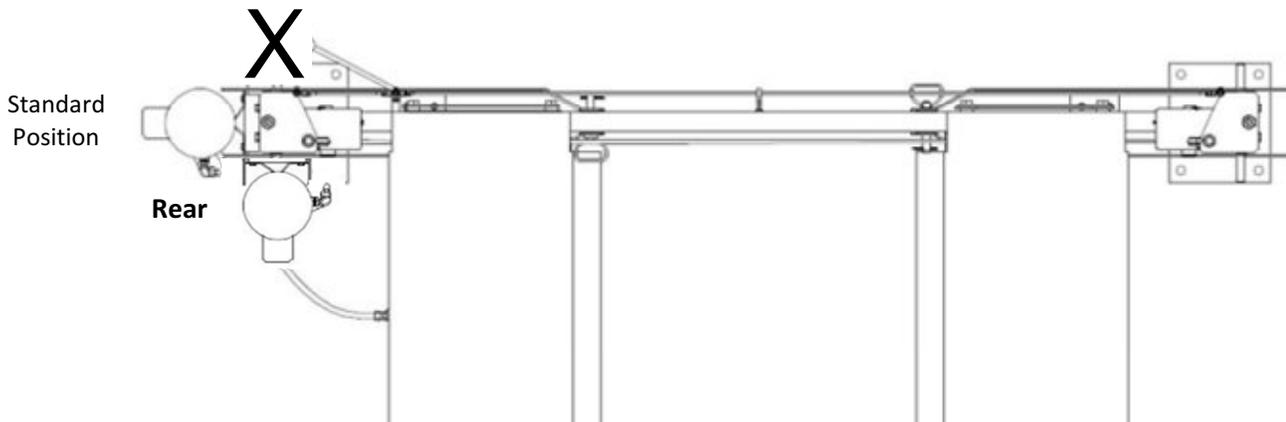

The DURO Power Unit 90 Degree Bracket is specifically designed to mount to DURO Power Units. The 90 Degree Bracket Kit is designed to be mounted on both the FP9K-DX-XLT and FP8K-DX Series Storage Lifts.

Features include:

- Relocates Power Unit to side of column to reduce the lift's overall width.
- 90 Bracket can be mounted on front (FP9K-DX-XLT only) or rear of power unit column.
- Powder coat finish.
- Mounting hardware included.

FP8K-B, FP8K-DX & FP8K-DX-XLT Lift Models

Note: DURO Power Unit can be mounted only to the rear of Main Side Column

FP9K-DX-XLT Lift Model

Note: DURO Power Unit can be mounted to front or rear of Main Side Column
