US HUNDRED DOLLAR BILL

Many researchers have speculated for years what the significance of the time on the reverse side of the US 100 Dollar Bill might mean. For one, if the time is 2:22 PM, and not 4:20PM then it can be translated into roman numerals. The Roman numerals would be: II:II:II or 11-11-11. Thus 2:22PM = [11 - 11 - 11].
