SunSmile Always Safe and Effective!

SunSmile Herbal Dental Care

Warning! Call The Poison Center!

Safety:

Have you seen the warning on your favorite toothpaste?

“We don’t want our children swallowing toothpaste that isn’t safe! That’s one reason we’ve switched brands to Sunrider’s exclusive, safe, economical and very effective SunSmile products for all our dental needs.”

SunSmile Herbal Tooth Paste

Dr. Chen spent much time researching ingredients and has provided a solution by making a very extra ordinary product.

Benefits:

- No toxic industrial fluoride, sugars, saccharin, SLS
- Four times more concentrated than others
- Cost effective--only need pearl-size drop
- Cleans with enzymes
- Deliciously fresh!

Ingredients:

- *Nem Tree Extract* helps prevent bacterial buildup, tartar, plaque, & poor quality gums
- *Chlorophyll* - a natural deodorizer
- *Enzymes* - help digest protein and food particles between teeth not reached by brushing. Tip: leave toothpaste in mouth a

while to allow more time for enzymes to work.

- *Bicarbonate of Soda* - baking soda-cleans and polishes the teeth
- *Herbs* also found in Calli beverage protect teeth from bacteria and plaque buildup.
- *Natural clove oil, cassia seed extract, eucalyptus oil, peppermint oil and licorice extract* give great taste.

Canker Sores?

Check Your Toothpaste!! 64% fewer mouth sores with SLS free toothpaste. (Sodium Laurel Sulfate) SLS is a commonly used detergent in most toothpastes that apparently destroys the protective substance lining the tissues of the mouth.

Fluoride Warning! It...

- Removes the enamel on the teeth
- Accumulates and stores in the body
- Increases the risk of bone cancer
- Decreases bone mass and strength, increasing risk of hip fractures
- Increases browning of the teeth
- Increases risk of women’s infertility
- Inhibits streptococcus mutans, a major cavity causing bacteria in mouth–
- Is a very toxic poison (Journal of the American Medical Association, Sept. 18, 1943)

What else discourages tooth decay?

A solid maintenance program obviously is very important, but, the **health of our immune system also determines how many cavities we get** and, if the immune system is weak, it will open the door for disease in the mouth as well as in the rest of the body.

Dr. Chen says “Eat *Refresher Drops* at bedtime to wake up with sweet breath.”

SunSmile Refresher Drops

Replace Your Mouth Wash with a few Refresher Drops in 1/4 cup water and stop bacteria from growing for up to 4 hrs!

Benefits:

- Alcohol free. Leading cause of brain damage in young children is accidentally consuming alcohol-based mouthwashes.
- Stain removing, increasing effectiveness of Whitening Gel.
- Bacterial control maximized with each brushing when apply one drop onto your brush. Will cause mouth to bubble when bacteria present (like the Fruit and Veggie Rinse.)
- Makes us more “kissable” with a fresh, pleasant breath.
- Excellent gargle for sore throats.
- Great disinfectant for wounds or cuts

Ingredients: *clove oil, peroxide, neem extract and grape extract,*

SunSmile Tabs

- Refreshing, chewable tablets. When you can't brush or just want a burst of mouth freshness. **On the Go!**
- Effective ingredients as a disinfectant, antiseptic, anti-viral, anti-fungal, anti-bacterial, and anti-parasitic effects.
- Powerful healing and soothing with extra antioxidants like citrus bio-flavonoids, selenium, & Vitamin E & C.
- Beneficial for canker sores, gingivitis, and halitosis – even upset stomach! No more Tums!

Whitening Gel

- 100% non-abrasive
- Maximum strength peroxide and extra enzymes for whiter and cleaner teeth
- Daily: Use a drop on your brush with toothpaste.
- Weekly: Apply directly to the teeth or with the mouthpiece to keep the gel against the teeth. This oxygenation process turns to water after 20-25 minutes. Rinse with *Refresher Drops in 6 oz water.*

Whitening Mouthpiece

- Durable mouthpiece is feather light
- Flexible and molds to your teeth.
- Apply small amount (seems to grow) of Whitening Gel and close teeth in the Gel for 15-20 min.

Experience by Diane Minch, Des Plaines, IL

“In the past, I have been prone to gingivitis, plaque build-up, stained teeth, and gums that bleed from dental cleaning. I now use all 3 of the SS products on my toothbrush twice a day.

Both my dentist and hygienist are amazed at the improvement in the health of my teeth and gums. They switched me from check-ups every 4 months to every 5, then every 6 months. I'm saving money on dental bills. The dentist has ranked me in the top 1% of his patients for dental hygiene and he also purchased 3 sets of the products.

These products are so concentrated that I have used less than 2 tubes of any of them in a year to get these phenomenal results.”

SUNRIDER'S SUNSMILE HERBAL TOOTHPASTE

Sunrider's owner expertise produces benefits that we can all share. Dr. Chen has proven that Sunrider products are Simply the Best. A prime example is SunSmile Herbal Toothpaste.

WHAT WE DON'T USE

SunSmile Herbal Toothpaste does not contain Sodium Lauryl Sulfate. Several recently published reports indicate that people get fewer canker sores when they switch to toothpaste that doesn't contain Sodium Lauryl Sulfate (SLS). Researchers believe that SLS dries out the protective mucous lining in the mouth, making it vulnerable to irritants that can lead to canker sores. Therefore, **adults and children prone to canker sores should try SLS-free toothpaste like SunSmile Herbal Toothpaste.**

Recently, the U.S. Food and Drug Administration (FDA) began requiring additional warnings on toothpaste labels containing Fluoride to increase consumer awareness of possible harm. The new warning reads: "Warning: Keep out of the reach of children under 6 years of age. If you accidentally swallow more than used for brushing, seek professional assistance or contact a Poison Control Center immediately."

The American Dental Association says the warning is required only because the FDA has classified Fluoride as a drug. The ADA insists that exposure to Fluoride is not life threatening, but may cause dental fluorosis. The warning clashes with the traditional idea that including Fluoride in toothpaste will prevent cavities. The FDA cautiously performed a scientific review before requiring the new wording of the warning on Fluoride toothpaste labels.

If you haven't done it already, switch to Sunrider. SunSmile Herbal Toothpaste is concentrated so you use less. It polishes and cleans your teeth with natural baking soda, and best of all, contains no Fluoride or Sodium Lauryl Sulfate.

**Use just a pearl drop on your toothbrush - it goes a long way!
Many Sunriders have had a 4.75 ounce tube last 9 months!**

Note from Karilyn Dammarell, Lead Director:

Before I started using Sunrider's SunSmile Herbal Toothpaste and Whitening Gel, I went to my dentist every 6 months for cleaning because I had continual plaque build up and staining. It has been 18 months since my last visit - no plaque, no stains!
