

# FREE TRAINING FOR SMALL SYSTEMS

## Setting Effective Rates and Accessing Funding

**June 1-2, 2021**  
**9:00 AM – 12:00 PM**

These sessions will be conducted online, and CEU's provided for certified operators as well as Professional Engineers.

**AWWA and USDA invite Smaller Systems to attend this free workshop over two days.**

Workshop participants will learn how to assess revenue requirements, identify the community's financial priorities, and build rates that fit your situation and objectives.

All participants receive dedicated, follow-up technical assistance and helpful documents from AWWA.

### Day 1 – Setting Effective Rates

- Assess Your System
- Identify Community Priorities
- Build rates that fit your situation and objectives

### Who should attend:

- Municipal Officials (engineers, clerks, treasurers)
- System Board Members
- Operators
- Consultants who work with small systems

### Day 2 - System Optimization and Accessing Funding:

- Overview of the AWWA Partnership for Safe Water Programs
- How to conduct a self-assessment in order to optimize your operations
- General Management/Administration, Finance, Asset Management, Source Water Protection and Distribution System Operations.
- How to apply for low interest funding through the USDA. (a representative from your local USDA office will present this information and answer any questions you may have)
