

AVS Ventvisors / Side Window Deflectors

AVS invented the Ventvisor™ and offers the most vehicle coverage. Our “Original” signature Ventvisor™ or side window deflector is made in the USA and precision-engineered for an exacting fit to the broadest range of vehicles on the market today. AVS Original vent visor's™ customized design mounts in minutes to the outside of your vehicle using pre-applied 3M adhesive mounting tape applied above and around your windows. It's a quick, no-drill installation to create a perfectly snug and secure fit – completely safe for car washes too! Keeps fresh air in and the rain out. The Ventvisor™, also referred to as a side window deflector, window shade or rain guard, allows fresh air to naturally circulate through open windows while keeping the rain out. Additionally, the product keeps the sun out of your eyes, enables fresh air circulation to eliminate stale, smoky air and allows you to keep your window cracked while parked, keeping the interior cooler. Now, you can truly enjoy the fresh air and whatever nature sends your way! Great coverage and quality manufacturing AVS offers the most comprehensive Ventvisor™ vehicle application coverage for trucks, SUVs, CUVs, vans and passenger cars. All AVS vent visors™ are made of a higher-grade acrylic material than most, which means they hold their smoke black color and are just the right thickness to be strong yet flexible for a perfect fit. Best-selling line and backed by Lifetime Warranty. The AVS Ventvisor™ line is the best-selling line throughout North America. A Lifetime Warranty protects your AVS Original Ventvisor™ or Side Window Deflector. Get a set today and start enjoying exterior style and constant fresh air right away!
