PESC is working to become the voice for the efficient and secure exchange of student data from initial access of the student from high school into the college environment through successful completion of the education experience.
PESC is driving the alignment of data across disparate systems, across sectors and eliminating incompatible interfaces that present barriers to students and that inflate costs for institutions struggling to keep up with the demands of technology and real-time data exchange while maintaining competitive tuition rates.

PESC is building a core competency in XML architecture and data modeling and serves as a data standards-setting body for higher education.

PESC is collaborating throughout education and with the strength it derives from the actions and involvement of its membership, PESC is activating interoperability in higher education.

Established in 1997 & located in Washington, D.C., the Postsecondary Electronic Standards Council (PESC) is a 501(c)(3) non-profit, community-based, umbrella association of colleges & universities; professional & commercial organizations; data, software & service providers; non-profit organizations & associations; and state & federal government agencies.

PESC's mission is to lead the alignment of data across disparate systems to improve performance and ensure cost-effective student progression along the higher education lifecycle.

Spring 2009 Member Summit

April 7 – 8, 2009
Hyatt Regency Washington on Capitol Hill
Washington, D.C.

PESC Spring 2009 Member Summit

Welcome to PESC's Spring 2009 Summit! We are very pleased and excited to have you all here with us for this very important series of meetings, all of which take place in the lower level. While the Board of Directors will be meeting in executive session, all other meetings are open to all attendees. Please feel free to observe and/or participate in as many meetings and discussions as you like. A special thank you to Gold Sponsors National Student Clearinghouse, Oracle, and Xap for helping make this event possible.
