

RADS, CONDENSORS, HEATERS & CHARGE AIR COOLERS

FleetWide Products sources only the highest quality aftermarket Radiators, Condensers, Heaters and Charge Air Coolers manufactured of Original Equipment Style materials like: plastic/aluminum, copper/brass and copper/plastic. However, purchasing the best products available is only part of our Quality First philosophy.

We are stocking units for most major vehicle manufacturers including Peterbilt, Freightliner, Ford, International, Sterling, Volvo and Mack, and many more.

If we don't have the unit that you need in stock, we have the flexibility to have the unit manufactured for you. By manufacturing heavy duty Radiators, Condensers, Heaters and Charge Air Coolers, we are able to ensure the standards of quality our customers have come to expect time and time again. To Place an order please provide the VIN # of the truck or OEM part number

INJECTORS & TURBO CHARGERS

We can help you with all your diesel fuel injection and turbocharger needs, from new parts sales to rebuilding your old pump, injector, or turbocharger. In order to give you fast and accurate pricing information, we ask that you provide the engine application, the OEM part number for the unit and the part number of the unit you are wanting information about.
